*The World's Newest and
Finest Varieties Illustrat-
ed on these two pages.*

63¢

FIVE FOR \$2.85

All 2 year Heavy Field Grown Bushes.
These beautiful everblooming Hybrid Tea Roses will
bloom from June until Autumn.
It Costs Less to Order Roses by Mail

Our fresh stock will grow. We guarantee it to arrive in
A No. 1 condition. Save yourself money by not having to
replace your plants another year. Buy direct from the grower.

Never before have the latest and choicest varieties been
offered at such outstandingly low prices. Every plant shipped
is Maloney's famous top quality. Buy Liberally.

Most Outstanding New Rose Novelties (SEE FRONT COVER)

BLAZE—A marvelous, hardy, everblooming scarlet-red Rose,
combining the bloom and growth of Paul's Scarlet Climber
with the everblooming character of Teplitz. Very vigorous.
Seldom out of bloom. Can be pruned very low for bedding;
medium for shrub use; or trained as a climber. See front
cover. \$2.00 each.

MARY HART—A most unique sport of Talisman. Bud is
maroon-red, opening to large, well-formed blooms of deep,
velvety blood-red, with an overflow of amber, but the most
remarkable feature is the total absence of yellow. A
tremendous producer. See front cover. \$2.00 each.

SOUVENIR—Another golden sport of Talisman.
A rose of great beauty, with all of the splendid
qualities of Talisman. A clear yellow which
does not fade. The bush is an erect and a
vigorous grower, making Souvenir an outstand-
ing yellow garden rose. See front cover. \$1.50
each.

Marcia Stanhope

Buy Direct From The Grower To Succeed Best With Roses.

*Joanna Hill**Clovelly*

63¢ Roses

Amelia De Bethune—Large, full coral-red shaded carmine, profuse bloomer, fragrant.

Clovelly—Rich, satin pink, pointed buds and well shaped flowers.

E. G. Hill—Great massive blooms of deep maroon, velvety on inside and glistening outside, very perfumed.

Fontanelle—Large, lemon yellow flowers, deepening to gold at center.

Joanna Hill—Very double Indian yellow, vigorous, upright.

Lady Barnby—Glowing pink, shaded darker, full double, very fragrant.

Marcia Stanhope—White, a long bud, and full double flowers of good size.

President Herbert Hoover—"President Hoover" is a glorious rose, wonderfully free in the easy manner in which it grows and charming in its color arrangement, which is a splendid combination of cerise, pink, flame, scarlet and yellow. The flower is large and the bud beautifully pointed. The petals are broad and thick, retaining this characteristic days after the flowers are open.

Sir David Davis—Large, double, unfading deep crimson, very fragrant.

Talisman—The most vividly colored rose ever introduced. No illustration can do it justice. Beautiful combination shadings of gold, apricot, deep pink and old rose. Unlike most roses, the colors deepen as the rose opens.

ROSES

Will purchase any Rose listed on this page. The finest in old and new Everblooming Hybrid Teas. All 2 year, Heavy Field Grown Plants.

Sensational Money Saving Offers. See page 7.

Chas. K. Douglas—Flaming scarlet flushed with velvety crimson.
Columbia—Extra large, glistening rose pink. Long stems.
Dame Edith Helen—Excellent shape, glowing pink, fragrant.
Duchess of Wellington—Saffron-yellow flush crimson, opens lighter.
Etoile De France—Large double blooms of rich velvety crimson.
Etoile De Hollande—Bright red with fine fragrance; very lasting.
Francis Scott Key—Immense crimson buds and flowers of good form.
Gen. McArthur—Very fragrant; free bloomer. Flowers bright scarlet.
Gruss An Teplitz—Dark, velvety scarlet, medium size, profuse bloomer.
Jon. J. L. Mock—Bright cherry, inside petals silvery white, double, fragrant.
Killarney, Pink—Bright, sparkling, double pink, free bloomer.
Killarney, White—Large, snowy white, double flowers.
Lady Ashtown—Tender rose shading to yellow at base with silvery pink reflex.
Lady Hillingdon—Strong apricot-yellow buds, pale yellow when open.
Los Angeles—Double, luminous coral pink toned gold at base.
Luxembourg—Rich golden yellow; large, fine double.
Mme. Butterfly—Buds rich Indian red, yellow at base. Very beautiful.
Mme. C. Testout—Silvery rose, deepening at center to pale cherry red.
Mme. Ed. Herriot—Profuse bloomer, coral-red, yellow base. Handsome.
Mrs. Aaron Ward—Deep golden orange, shading to cream.
Padre—Coppery scarlet flushed with yellow at base. Beautiful.
Radiance Pink—Beautiful blending of carmine-rose with shades of opal and copper. Extra hardy and prolific.
Radiance Red—A glowing crimson. Heavy stemmed.
Rev. F. Page Roberts—Golden yellow stained outside with red. Copper red buds extra long.
Sensation—Long buds, handsome scarlet flowers, maroon markings.
Souv. De Claudius Pernet—Unfading sunflower yellow even deeper toned at center.
Souv. De Georges Pernet—Cheerful succession of reds—from orient to cochineal to carmine edge. Very beautiful.
Sunburst—Beautifully formed, rich yellow shaded orange.
Willowmere—Rich shrimp pink, yellow center, darker at edges.

*Mrs. Aaron Ward**Los Angeles*

SUGGESTIONS FOR ROSE CULTURE

Plant roses in good rich soil. Do not trim the roots off too severely, but cut the tops off about six to eight inches above the top of the ground. Pack good rich soil thoroughly around the roots.

After planting, a good idea is to place a few shovel fulls of soil over the plant tops to shade them for a week or longer while the roots are getting started. This keeps the tops from shriveling while the main roots are throwing out their little moisture-gathering rootlets. Remove the soil some cloudy day and the roses will grow on nicely.

Winter protection of the tenderer bush roses is usually necessary. Soil mounded up over the plant, the tying of straw or similar protection is advised.

Hybrid Perpetual Roses

Paul's Scarlet Climber

Very large in size—adapted where
Winters are severe.

Every One Has Bloomed In Nursery Row.
Price of Strong Bushes, 2 Year, No. 1, 45c each.
Sensational Money Saving Offers.
See Page 7.

Frau Karl Druschki (Snow Queen)—The finest white Hybrid Perpetual. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom.

General Jacqueminot—Brilliant crimson; large and fine. Beautiful in bud.

George Arends—Clear, tender pink; good bud and perfectly formed flowers.

Harrison's Yellow—Extremely fragrant, profuse in bloom.

J. B. Clark—Intense, deep scarlet, heavily shaded, blackish crimson.

Madame Gabriel Luizet—Flowers light silvery-pink, shading paler at petal edges. Bears an abundance of bloom.

Magna Charta—Pink and carmine; very large and full; a profuse bloomer. Fragrant.

Margaret Dickson—A free summer and autumn bloomer. Flowers white with pale flesh center; delightful fragrance.

Paul Neyron—The largest of all. Deep rose color. A free bloomer.

Prince Camille de Rohan—Very dark velvety crimson, changing to intense maroon.

Ulrich Brunner—Large flowers of light red; grow on long stems.

Climbing Roses

FEW houses ever have enough climbing roses. The gloriously colored blossoms and their delicate perfume increase the beauty of the home which they ornament. Climbers turn bare walls, fences and trellises into real gems of loveliness.

Price: Two Year, No. 1 Bushes 39c each; 5 for \$1.85

Aviateur Bleriot—Buds orange, pink and apricot; flowers double, medium size, pale yellow to white.

Climbing American Beauty—Rich carmine pink, the large, finely shaped flowers being borne singly or in threes. Rambler type.

Climbing Gruss an Teplitz—Vigorous, branching grower bearing continually bright crimson flowers like the bush rose of the same name.

Crimson Rambler—Vigorous, hardy and extremely prolific. It blooms in clusters of a beautiful crimson color and lasts a long time.

Dorothy Perkins—Beautiful shell-pink. Flowers double, large, usually two inches across and borne in loose clusters.

Emily Gray—The most beautiful yellow climber, with large golden buds and blooms which do not fade.

Excelsa—Brilliant scarlet-crimson flowers of great beauty.

Gardenia—The tight, very numerous little yellow buds, are beautiful in early summer, the flowers opening up creamy white jasmine scented.

Hiawatha—Small flowers—deep ruby crimson—uniquely borne in long trails of 40 to 50 blooms.

Paul's Scarlet Climber—Vivid scarlet, good size, semi-double, freely produced in clusters of from 3 to 20 flowers each, the plants being literally covered from top to bottom with bloom.

Rosiere (Pink Tausendschon)—Persistently deep, glowing pink.

Seven Sisters—Red to blush pink.

Silver Moon—Beautiful, semi-double, pure white, four inches in diameter; with a cluster of prominent yellow stamens in the center.

Dr. W. Van Fleet—Large flowers of exquisite pale pink on fine, long stems.

Veilchenblau (Blue Rambler)—Double flowers of light lilac, shading light purple and blue.

White Dorothy—Duplicate of Dorothy Perkins except in color.

RUGOSA AND HUGONIS

Price: 40c each; 10 for \$3.50

Grootendorst (Rugosa)—For group planting to give color contrast throughout season. Everblooming. Colors red and pink.

Rosa Hugonis—A dense rose bush of medium shrub proportions, well adapted to either specimen or mass planting in the foreground of shrub groups. Their color is bright and noticeable, ranging in shades of yellow from deep gold to canary.

DWARF POLYANTHA—BABY ROSES

Everblooming

Price: 49c each; 10 for \$4.50

Called the "Baby Rambler" on account of their very short close growth. The flowers are borne in clusters of twenty or more. Bloom from May to November. Fine for beds, edging for perennials or shrub plantings. Colors, crimson, pink and yellow.

Prattsburg, N. Y.

Dear Sirs:

Am writing to tell you of the wonderful success have had with the roses which I purchased from you this spring.

Every rose lived and blossomed many times; every rose is true to name, and at our annual Flower Carnival, I received first premium on my roses.

Am ordering more of Maloney roses this fall.

MRS. S. B. MERRITT

Colliersville, N. Y.

Gentlemen:

Everything arrived in excellent condition; you certainly have a fine method of shipping. As for the trees, shrubs, etc. I wish to say they are the finest I ever saw. I do not see how you can sell them so reasonable, as they are at least twice as good as I expected to get for the money.

I will gladly recommend you to all those who are looking for anything in the nursery line.

Yours very truly,
LEONARD COOPER

Paul Neyron

MALONEY QUALITY

Nationally endorsed for 49 Years

IN 1884 Thomas Maloney started this Company. Because only top-quality stock was shipped at lowest possible prices, the business grew from a few acres of land and a small storage to the immense business we have today. Now 500 acres are under cultivation, storage quarters five times as large, packing houses, greenhouses and office. We employ one hundred men; and today are unchallenged in our statement of being "The Oldest and Largest Mail Order Nursery in New York State." Mr. A. E. Maloney, our President, has personal charge of all plantings. Every day of the year he is out supervising our stock; from planting, cultivation and budding to the time your shipment is made direct to you. He personally supervises each shipment going out to be sure that your stock will arrive true to name, and be in exactly as good condition as when it is taken from the field. We sell only direct from grower to you,

as no other method can possibly assure you such healthy, vigorous stock.

Our propagator, a man of many years' experience—in fact one who has been connected with greenhouses all his life—passes the advantages of his knowledge along to you. He gives you the newest, best and most beautiful varieties of roses, perennials, shrubs, evergreens, fruit trees, vines and berries that can be found anywhere in America today.

In our office we ship all of your orders at the proper planting season for your climate, see to it that you get prompt service, answer all correspondence, assemble catalog and circulars, and try to the best of our ability to satisfy your every wish. This department is supervised each day of the year by myself.

W. J. MALONEY
Secretary

Each year my brother and I make it a point to incorporate into our business any new ideas, our own and those of others, that may improve Maloney service, quality and economy. Last year we gave you the same high quality stock that you have been receiving for 48 years at the lowest prices in our history. This year, we offer you the greatest buy in the nursery business today. We do not believe that our prices and regular Maloney top quality, and the fact that this year "WE PAY THE SHIPPING CHARGES," can be duplicated by any mail order nursery house in these United States of America. This year we make it possible for you to buy first-class, freshly dug stock from an established firm for the same money that stock can be purchased from any store located in your city. Of course there is no question as to the superiority of freshly dug Maloney stock.

This, we hope, will in a measure show our deep appreciation to our thousands of customers, who for years have trusted in us to guide their plantings, and have learned to expect Maloney Bros. to lead the way to finer gardens and orchards. Remember, when buying from Maloney's you deal direct with growers of long experience. Maloney stock grows—you don't have to dig it up and replace it later.

W. J. Maloney
Secy. & Treas.

Binghamton, N. Y.

Gentlemen:

Though I doubt not but that you have had praise—a plenty—for your broadcastings. I presumed that it was one of the Brothers that had such a pleasing and clear enunciation, tone, etc., and a really splendid way of presenting the claims, advantages in "landscaping."

Beyond what easily comes to me in way of Spring catalogs, I've given my name to quite a number of Nurserymen whose addresses I have gained from my Rural New-Yorker, and Country Gentleman, and have received catalogs galore. And, as I open them out, I make comparisons—prices, claims.

And, Gentlemen, all this comparison, thought, etc. just confirms what I've thought for some years, viz. that Maloney Bros. are, all told, the best people in their line to deal with. Further, that Dansville, N. Y. geographically, can furnish things best acclimated.

Success to you.

Very truly,
H. M. DUNMORE

Freshly dug stock direct from Nursery best.

When and How to Order

TERMS: Cash with order is required. On orders over \$10.00 we will ship C.O.D. providing twenty-five per cent of the total amount is sent with order. If the order goes by express you pay the balance to your Express Agent upon delivery of stock; if by freight, you pay the balance at your bank where you will find bill of lading, which you will present to your freight agent, who will deliver shipment to you. On C.O.D. freight shipments, kindly advise name of your bank.

HOW TO REMIT: By personal check, express money order, post office money order, bank draft or cash in a registered letter.

SIZE OF ORDERS: Orders less than \$1.00: Send an additional 10c on all orders less than \$1.00 to cover packing cost.

USE ORDER BLANK: Use order blank to simplify ordering.

ORDER EARLY: Ordering early enables us to assemble your order while supply is unbroken and set it aside for shipment at the proper time.

SATISFACTION GUARANTEED: We guarantee all stock sold by us to be strong, vigorous and healthy and to arrive in good condition. If for any reason you are not absolutely satisfied with your stock notify us at once and we will gladly replace the items or refund purchase price.

MALONEY'S TREES ARE TRUE-TO-NAME—No human caution could be more exacting than ours. If any trees prove untrue to name, upon proper proof we will replace or refund the purchase price.

INSPECTION: Our nurseries are inspected yearly by a duly authorized state inspector and a copy of our certificate received from the Department of Agriculture and Markets, Albany, N. Y., accompanies each shipment.

SHIPPING SEASON: We ship orders so as to reach our customers at very best time for planting in their localities. If you desire shipment to arrive at a special date, please so state on order blank.

PLANTING INSTRUCTIONS: Helpful planting and after care instructions are listed in this catalog. Follow carefully and preserve this hook for future reference. Simple and explicit planting instructions will be sent with each order.

Plantings provide joy and comfort

Prune Before Planting

SHRUBS—Trim off $\frac{1}{4}$ of the top and $\frac{1}{4}$ of the ends of the roots.

ROSES—Trim tops to three eyes on each stem and trim off $\frac{1}{4}$ of root ends.

PRIVET—Trim tops to within 8 inches of ground and prune off $\frac{1}{4}$ of the root ends. This will give you a much more dense and thrifty hedge.

ORNAMENTAL AND SHADE TREES—Trim off $\frac{1}{4}$ of the top and $\frac{1}{4}$ of root.

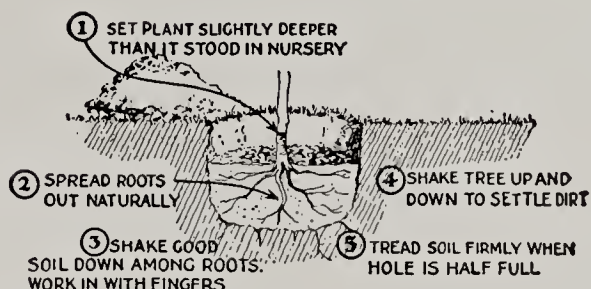

Care After Planting

It is well to work the ground frequently, keeping it loose and porous during June, July and August. This permits air to circulate through the broken up ground and the result to the plant is very beneficial. Give your plants plenty of water during dry periods.

While these directions apply principally to the first year after planting, they encourage growth if followed in subsequent years.

HOW TO PLANT

FRUIT TREES

(6) Fill hole and tramp soil. The lighter the soil the harder the tramp.

In pruning Fruit Trees, cut the side branches to 6-8 inch stubs and do not leave more than five to a tree. See that these are distributed around the trunk. One year trees are simply headed to whatever height they are wanted.

NOTE: Always keep the roots covered. Dig hole large enough to receive plant without bending roots. Break up subsoil when it is very hard.

EVERGREENS

(1) Dig hole a foot larger and deeper than ball of earth. Provide good, loamy top soil to fill around ball.

Maloney's Sensational Money Saving Offers

Unequalled Anywhere in the United States

MALONEY'S PAY SHIPPING COSTS

WE PREPAY SHIPPING COSTS on orders of **\$2.50** or more received during the entire Spring season of 1933 to all points in the following states: Connecticut, Delaware, D. C., Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

To the following states we will reimburse you for one-half shipping cost: Kentucky, Missouri, North Carolina, Wisconsin.

10% OF YOUR ORDER ADDED FREE

Write your order. Then, if it totals \$2.50 or more, add additional stock to the value of 10% of your order. These will be included free. This applies only to cash orders, and they must be mailed on or before March 25th.

OR 5% CASH DISCOUNT

Or, instead, you may deduct 5% (on orders of \$2.50 or more, on or before March 25th—2% Discount after March 25th) Cash Discount. Most people take the 10% offer.

Middlemen often sell unknown quality. Buy direct from the grower.

*What a wonderful
improvement and
for such a small cost.
—Any home lover*

FOR SATISFACTION, ECONOMY AND HANDSOME GROUNDS Use Maloney's Expert Landscaping Service

Maloney's Pay Shipping Costs • See Page 7

OWING to the many requests, asking what varieties of trees, shrubs, roses, etc., to plant for best effects and where to plant them, we maintain a Landscape Service Department for the convenience of our customers. This service applies just as well to the small yard as to the great estate of many acres.

Experienced Architects Reduce Cost

In this department we are employing landscape architects, who are familiar with the habits of varieties, who know the positions required for the different kinds, and who have an extensive knowledge of trees and plants. We are forced to make a small charge for their service, but because they usually recommend fewer plants than you yourself would select, they reduce your total expenditure while giving you handsomer grounds. Again, on large grounds, by having a plan you can divide the expenditure by planting part of the grounds each year, building to a beautiful finished work of art. When it is merely a question of advice on your planting problems no charge is made as this is a service we are anxious to render to insure your satisfaction.

How to Save Cost of Plan

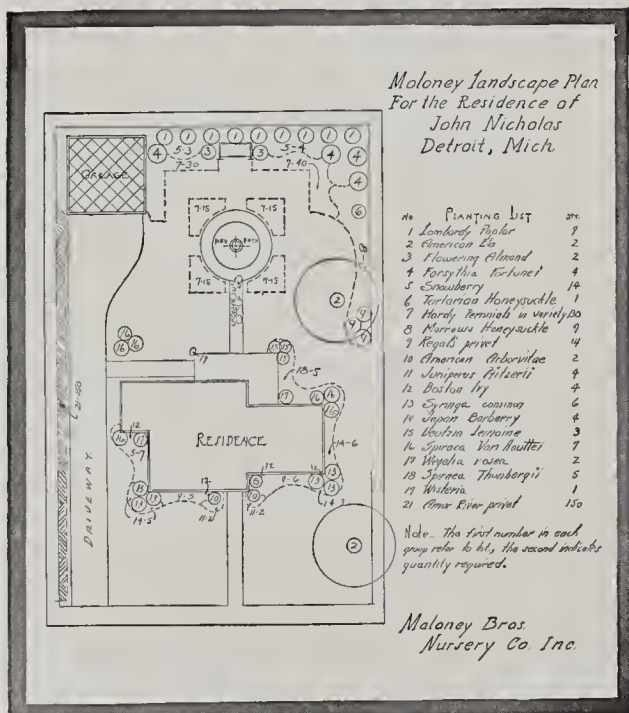

No actual charge for Landscape plans. Kindly send the information requested and our Landscape Department will draw you a complete plan showing what varieties to use and where to plant them. For this plan we will make a charge of \$4.00. Then if your order amounts to \$35.00 or more you may deduct the \$4.00 cost of plan when remitting. Cost of plan not deductible for order under \$35.00.

Necessary Information

The accuracy of our plan depends upon the information you give us, so be complete and exact.

Dimensions of Property, Dimensions of Buildings (show ground floor plan on sketch and give complete dimensions)—Distance of Buildings from Property Lines (locate in respect to Front, Back and Side Lines) Cost of House, Style of Architecture—locate all entrances, locate walk and drives and give width; locate porch and basement windows; (indicate Coal and Laundry Windows); show number of steps; locate existing trees and shrubs of any description; indicate any terraces or sloping ground; give directions of the compass; indicate objectionable features to be screened; indicate views to be retained; send any available photographs. Do you want a vegetable and fruit garden; do you want a Hardy Flower Garden? You don't have to make an architect's drawing to exact scale. Just a rough sketch will do, but be sure it contains all the information requested above. We will supply a complete scale drawing, as indicated in the lower left hand corner of this page. We strongly recommend that you use this service.

Write or phone us. Consultation and personal supervision by our landscape architects can be arranged for large estates, parks, schools, cemeteries, sub-divisions and public buildings anywhere.

Your Ground Plantings Will Last for Years. Get a Good Plan.

Maloney's Vines and Hedges

VINES

Vines give an indescribable charm to home and grounds.

Strong Two Year Vines

If by parcel post 3c each extra

The types which cling to wood, stone, brick or stucco are designated by a star (*), the rest twine or need support.

Akebia Quinata—A hardy, fast growing vine with magnificent foliage. Chocolate-purple flowers in large clusters, possessing a delicious perfume. 50c.

Bittersweet (Celastrus)—Handsome, glossy foliage and large clusters of beautiful, orange-crimson fruits retained all winter. Its graceful sprays of berries make charming winter house decorations. 45c.

Clematis Henryi—Free bloomer, producing large white flowers constantly during the summer and early autumn. 75c.

Clematis, Jackmanni—Flowers large, rich, velvety violet-purple, produced in masses forming a cloud of bloom. 75c.

Bittersweet

Clematis, Mme. Andre—Large crimson red flowers, free blooming. 75c.

Clematis, Paniculata—Rapid grower, covering trellises and arbors with handsome, clean glossy foliage. The flowers are of medium size, fragrant pure white, borne in immense sheets in September, when very few other vines are in bloom. 40c.

Dutchman's Pipe—Brownish flowers, resembling a miniature pipe; splendid for archways or verandas. Large heart-shaped leaves. Thrives in sun or shade. 75c.

Euonymus Acutus—Sharp, pointed narrow leaves—extremely beautiful in fall and winter with its attractive red berries. 60c.

***Euonymus Radicans, Vegetus** (Evergreen Bittersweet)—Hardy, of quite shrubby character, its rounded leaves close-covering, glossy evergreen throughout most of winter; showily spangled with orange-red berries. 60c.

***Ivy, American or Virginia Creeper**—Deeply cut leaves which turn to a beautiful crimson in fall; fine for covering trees, rocky slopes, walls. 40c.

***Ivy, Boston (Ampelopsis Veitchi)**—Fine for covering walls, as it clings firmly to the smoothest surface, covering it closely with overlapping foliage, giving the appearance of being shingled with green leaves. 50c.

***Ivy, English**—Foliage dark glossy green. Evergreen. Clings to stone walls. 50c.

Honeysuckle, Hall's Japan—An almost evergreen honeysuckle of great value, hardy and of strong growth. The flowers are fragrant, of a pure white, changing to yellow. 35c.

Honeysuckle, Scarlet Trumpet—Trumpet shaped flowers of bright scarlet, extremely attractive. 40c.

Matrimony Vine—Ornamental shrubby climber. Small, purplish flowers in summer, followed by scarlet berries until late in winter. Beautiful. 40c.

Silver Lace Vine—A new introduction. Will climb gracefully up a trellis, over a tree trunk, a wall, a porch, an arch. It will rapidly grow 20 feet or more, with green foliage lightly bronzed at the tips. A well-grown specimen is a cloud of lacy, misty white, shot with tints of cream and pale rose of most exquisite effect. 65c.

Wisteria, Chinese Purple—A most beautiful climber of rapid growth producing long, pendulous clusters of flowers. 75c.

Wisteria, White—Same characteristics as Wisteria Purple. 60c.

Silver Lace Vine

HEDGES

Hedges protect and beautify, giving privacy to your home and giving a living green fence the year round.

Barberry Thunbergi—A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. 2 year, strong plants, well branched. Plant 18 inches apart.

18 to 24 in. \$4.50 per 25; \$16.50 per 100; \$150.00 per 1000
2 to 3 ft. 5.85 per 25; 21.50 per 100; 200.00 per 1000

Barberry, Box (Berberis Thunbergi Minor)—Foliage round and dense and growth so evenly compact, it bears a striking resemblance to Boxwood. Slower and lower growing than Thunbergi, its density allows closer trimming; so that—again like Boxwood—sheared specimens may be trained into perfect globes or pyramids, as well as the cropped hedge.

9 to 12 in. 25c each; \$2.20 per 10; \$18.00 per 100
12 to 15 in. 35c each; 3.00 per 10; 25.00 per 100

Privet, Amoor River—Hardy. Of similar form to the California type, not so lustrous, but safest for cold climates. 2 year, strong plants, well branched.

18 to 24 in. \$1.25 per 10; \$ 8.50 per 100; \$65.00 per 1000
2 to 3 ft. 1.50 per 10; 10.50 per 100; 85.00 per 1000

Privet, California—Of all ornamental hedge plants this is the most highly prized. The leaves are a rich green and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter.

18 to 24 in. \$1.00 per 10; \$6.00 per 100; \$45.00 per 1000
2 to 3 ft. 1.20 per 10; 7.00 per 100; 55.00 per 1000

Privet, Regel's—A strong, very hardy type with dark and shiny leaves. The numerous branches are stiff, twiggy and horizontally spreading, gracefully drooping at the ends. Makes a naturally wide, dense bush adaptable to foundation plantings.

18 to 24 in. \$2.00 per 10; \$17.00 per 100
2 to 3 ft. 2.75 per 10; 22.50 per 100

Plant Privet 1 foot apart in double rows, and rows 1 foot apart alternated.

California Privet

Hedges cost little, but how wonderfully they improve home grounds!

Maloney's Distinctive Evergreens

Juniper, Irish

For stateliness, dignity and a year-round touch of color nothing can take the place of an evergreen. The very smallest plot can use at least one evergreen to advantage, while larger homes everywhere find a selection of evergreens practically a necessity. Our many different types and forms offer appropriate varieties for any planting. Include at least one evergreen in your order.

All evergreens will be lifted with ball of earth and roots wrapped in burlap. Leave ball of earth and burlap on when planting. Wet ground after planting until like mud, then one pail of water each week for first summer. Do not trim tops of evergreens. See illustration on page 7.

Arbor Vitae, American—A beautiful tree much used for hedges screens, foundation planting and singly on lawn. Can be trimmed and kept in any form or height.

18-24 in.	\$1.29
2-2½ ft.	\$1.59
2½-3 ft.	\$1.79
3-3½ ft.	\$2.25

Write for special prices on larger sizes.

Arbor Vitae, Globosa—Forms a dense, low globe; handsome shade of green.

18 to 21 in.	\$1.75
--------------	--------

Arbor Vitae, Pyramidal—A valuable upright evergreen of dense, compact habit. Foliage light green.

18-24 in.	\$1.15
2-2½ ft.	\$1.75

Arbor Vitae, Tom Thumb—Small and compact. Very desirable for planting in evergreen groups.

15 to 18 in.	\$1.25
--------------	--------

Fir, Douglas—Popular for its hardiness and great beauty; dark green.

18-24 in.	\$1.75
2-2½ ft.	\$2.25
2½-3 ft.	\$2.50

Write for special prices on larger sizes.

You admire evergreens; now, with these low prices you can enjoy your own.

*Pine, Mugho*

- Juniper, Savin**—Handsome moss green foliage; adapted to use as a filler in Evergreen groups, or as a dwarf ground cover.
15 to 18 in. \$1.75
- Pine, Austrian**—Broadbased, heavily needled, massive; darkest and richest green of the Pines. Quite densely and evenly branched. Withstands city smoke better than any other Evergreen.
18 to 24 in. \$2.00
2 to 2½ ft. \$2.50
2½ to 3 ft. \$3.25
- Pine, Mugho**—The only genuine Dwarf Pine. Leaves short, stiff and formal. Does not grow tall, but spreads out, generally assuming a globular form; very dense. Popular in the foreground of foundation plantings.
12 to 15 in. \$1.50
- Pine, Scotch**—A very rapid grower. The branches strong. Foliage is a bluish green.
18 to 24 in. \$1.50
2 to 2½ ft. \$1.95
2½ to 3 ft. \$2.50
Write for special prices on larger sizes.
- Pine, White**—A strong featured, rapid growing tree, with abundant silvery green foliage, in long swaying clumps of soft needles.
18 to 24 in. \$1.75
2 to 2½ ft. \$2.25
- Retinospora Pisifera**—Foliage feathery light green, glaucous beneath.
2½ to 3 ft. \$3.00
3 to 3½ ft. \$3.50
- Retinospora Plumosa (Plumed Cypress)**—This is one of the best pyramidal varieties. Foliage a grayish green, very finely cut and has a feathery appearance.
18 to 24 in. \$1.50
2 to 2½ ft. \$2.00

Juniper, Horizontalis—Handsome, serviceable, especially good in Rock Garden. A fresh gray green turning to bronze in Fall.
12 to 15 in. \$1.25

Juniper, Irish—Decided column form which immediately attracts attention. Foliage is a glaucous green used for formal work, especially in contrast with other plants. It is very slender in habit of growth and needs no shearing.
18 to 24 in. \$1.25
2 to 2½ ft. \$2.00
2½ to 3 ft. \$2.75

Juniper, Pfitzers—Of the spreading type this is perhaps the most popular. Foliage a grayish green, slightly drooping and branches are horizontally spreading. It thrives where others fail.
15 to 18 in. \$1.75

Spruce, Black Hills—Makes a very close and compact growth. The foliage shades from green to a bluish tint.
18 to 24 in. \$2.00
2 to 2½ ft. \$2.50
2½ to 3 ft. \$3.00

Spruce, Colorado Blue—This is hardy, healthy and very beautiful. Its foliage is a steel blue.
18 to 24 in. \$4.00
2 to 2½ ft. \$5.00

Spruce, Colorado Green—The origin of the famous Blue Spruce. A vigorous grower and hardy, making fine specimens in a broad based, sharply defined pyramidal form; foliage rigidly angular with sharp needles very densely set. Light green color.
18 to 24 in. \$1.75
2 to 2½ ft. \$2.25
2½ to 3 ft. \$3.00
Write for special prices on larger sizes.

Spruce, Norway—Most common Spruce seen; largely used for Christmas trees; a large pyramidal tree suitable for screens or wind-breaks or group planting.
18 to 24 in. \$1.00
2 to 2½ ft. \$1.50
2½ to 3 ft. \$2.00
Write for special prices on larger sizes.

Spruce, White (Picea Alba)—One of the very best conifers. Compact, upright, long-lived, retaining its branches to the ground; aromatic, drought-resisting; varies in color from light green to glaucous blue.
18 to 24 in. \$2.00
2 to 2½ ft. \$2.50
2½ to 3 ft. \$3.00

AZALEAS

Balled and Burlapped

Amoena (Hardy Evergreen)—Low hushy shrub, small green leaves changing in winter to a bronze or coppery brown. In spring covered with a wealth of claret-purple flowers which continue to open for a period of 2 or 3 weeks.
12 to 15 in. \$2.50

BOXWOOD

Tree Bush Form—Slow-growing, suitable for window-boxes, or as specimens.
12 to 15 in. \$1.75

*Black Hills Spruce**Arbor Vitae (Pyramidalis)**Colorado Blue Spruce**Douglas Fir*

Maloney's Deciduous Trees

Maloney's Ornamental Trees are chosen to combine welcome shade with charming color. Add one or two to your order. Enjoy them for years to come. If you desire to rent or sell, your property will command more money.

Your home grounds are not complete without some shade and ornamental trees. A comparison of a home without shade about it, to one with, is the best argument we can advance.

Ash, White—Fairly rapid grower. Assumes pleasing golden tones in autumn. Good in moist soils. 70-80 ft.

6 to 8 ft. \$1.25 each

Birch, Cut-Leaved Weeping—Its tall slender, yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree.

6 to 8 ft. \$1.75 each

Birch, European—An attractive white-barked tree. Strong grower.

6 to 8 ft. \$1.00

8 to 10 ft. \$1.75

Catalpa Bungei (Umbrella Catalpa)—Makes an umbrella-shaped top without pruning. Flourishes in almost all soils. Leaves large, glossy, heart-shaped.

6 to 7 ft. \$1.29 each; 2 for \$2.50

Catalpa Speciosa—Rapid grower. Large, heart-shaped downy leaves, and compound panicles of white flowers.

6 to 8 ft. 75c each; 10 for \$7.00

8 to 10 ft. \$1.00 each; 10 for \$9.00

Cherry, Japan Weeping Flowering—Beautiful pink flowers bloom in early May before the leaves appear and resemble miniature roses. The mass of bloom completely conceals the branches of this beautiful lawn specimen tree.

5 to 6 ft. stems \$2.98 each

Cherry, Kanzan Flowering—One of the famous flowering cherries which attract so much admiration in Washington, D. C. Beautiful glossy pink flowers in great profusion before the leaves appear. Of delightful fragrance.

4 to 5 ft. \$2.00 each

Crab, Atrosanguinea—The buds are purplish red, and the entire flower tinged purple.

3 to 4 ft. 75c each

4 to 5 ft. \$1.00 each

Crab, Bechtel Flowering—Produces large, double pink and extremely fragrant flowers in June.

2 to 3 ft. 49c

3 to 4 ft. 70c

Crab, Floribunda—Rose-red flowers borne in great profusion in May. Fruit red and very small.

3 to 4 ft. 75c

4 to 5 ft. \$1.00

Crab, Niedzwetzkyana—Purplish foliage, the wood and bark also tinged with red. Extra large flowers deep pink, the edible fruits purple.

3 to 4 ft. 75c

4 to 5 ft. \$1.00

Crab, Spectabilis—A very showy variety. Double deep coral red bloom. Grows rather large.

4 to 5 ft. 75c

5 to 6 ft. \$1.00

Catalpa Bungei

Cornus Florida—White Dogwood

Cornus Florida (White Flowering Dogwood)—Flowers white, 3 to 3½ inches in diameter, produced in spring before leaves appear; very abundant, showy and durable. Foliage grayish green, glossy and handsome; in the autumn turning to deep red.

3 to 4 ft. \$1.25

Elm, American—A natural spreading and drooping tree of our own American meadows and forests. Is entirely hardy and easily transplanted.

8 to 10 ft. \$1.40 each; 10 for \$11.50

10 to 12 ft. \$2.00 each; 10 for \$17.50

Write for special price for larger sizes.

Elm, Chinese—A new introduction from China. This variety is a very rapid grower. Known to have reached a height of 20 feet six years after planting an 8 to 10 ft. tree. Resembles the popular Norway Maple in shape. Good foliage, more dense than other elms. Exceptionally adapted for street and shade planting where quick results are desired. Grows 75 feet high.

4 to 5 ft. 75c

5 to 6 ft. \$1.00

6 to 8 ft. \$1.50

Horse Chestnut, White Flowering—Very handsome; has magnificent spikes of white flowers.

5 to 6 ft. \$1.50

Judas Tree (Red Bud)—A small growing tree of irregular form, with heart-shaped leaves. It is covered with delicate pink blossoms early in spring

before the leaves appear, a charming association among the tender greens

and bronzes of young foliage.

4 to 5 ft. \$1.00

Locust, Black—A native tree of large size and rapid growth. The flowers in long white racemes, very fragrant. Valuable for timber.

6 to 8 ft. \$1.00

8 to 10 ft. \$1.50

Norway Maple

Why Maloney Prices Are Lower Than Agents' Prices

When a grower sells through an agent, the grower must make his regular profit, and must charge enough, besides, to pay the agent an attractive commission on what you buy. At Maloney's you pay just the regular grower's price—no commissions or any needless charges. You are protected, too—by Maloney's 49 years in business and the Maloney Guarantee. Finally, Maloney's stock is the best it is possible to grow, famous for top quality, liberal bearing, healthy and true-to-name.

A house without shade is like a pedestrian without a hat.

Flowering Cherry

Mountain Ash

Magnolia Glauca (Sweet Bay)—When planted in moist soil this makes a handsome tree 30 to 40 feet high but in the drier lawns is much smaller. Its broad leaves are glossy, laurel-like, almost evergreen. In June, its large, waxy white flower cups are lovely and exquisitely fragrant.

2 to 3 ft.\$3.79

Maple, Ashleaved (Box Elder)—Fine, rapid grower, handsome light green foliage and spreading head.

6 to 8 ft.\$.75
8 to 10 ft.\$1.00
10 to 12 ft.\$1.35

Maple, Norway—This is one of the hardiest ornamental shade trees and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple.

6 to 8 ft.\$1.79 each; 10 for \$15.00
8 to 10 ft.\$2.45 each; 10 for \$22.50
10 to 12 ft.\$3.00 each; 10 for \$27.50

Write for special price for larger sizes.

Maple, Silver-Leaved or Soft—Foliage bright green above and silvery underneath. An exceedingly rapid grower, makes a large tree.

6 to 8 ft.60c each; 10 for \$ 5.00
8 to 10 ft.85c each; 10 for \$ 7.50
10 to 12 ft.\$1.25 each; 10 for \$10.00

Maple, Schwedler—Reddish purple foliage in early Spring, changing to deep bronze in Fall.

6 to 8 ft.\$2.50 each

Maple, Sugar or Rock—Is considered slow grower, but long lived.

6 to 8 ft.\$2.00 each

Maple, Wier's Cut-Leaved—Beautiful tree with cut or dissected foliage. Shoots slender and drooping, as graceful as cut-leaved birch.

6 to 8 ft.98c each

Mountain Ash, European—A very beautiful tree for ornamental planting. In the early Fall it bears clusters of bright red berries.

6 to 8 ft.75c each

8 to 10 ft.98c each

Mulberry, Russian—Very hardy, vigorous grower, very productive, fruit black and of medium size.

4 to 6 ft.79c each

Mulberry, Tea's Weeping—The most graceful and hardy weeping tree. Forms a perfect shaped head, with long, slender willowy branches drooping to the ground.

5 ft., 2 year heads.\$2.48

Oak, Red—The young shoots and leaf stems are red, the foliage purplish-crimson in Autumn. Unusual large leaf and growth rapid. A most beautiful tree. 80-100 ft.

4 to 6 ft.\$2.25

6 to 8 ft.\$2.75

Oriental Plane—A hardy, rapid growing tree. Beautiful dense foliage.

4 to 6 ft.\$1.15

Poplar, Carolina—The most rapid grower among shade trees, frequently growing eight feet during one season and thus making fine shade in two or three years. Will grow in any kind of soil.

6 to 8 ft.49c each; 10 for \$4.00

8 to 10 ft.59c each; 10 for \$5.00

10 to 12 ft.79c each; 10 for \$7.50

Flowering Crab

Poplar, Lombardy—Well known for its tall, spire-like form. Where it is desired to make a boundary line, or where there is an entrance to a driveway these trees are very effective. Transplant safely.

6 to 8 ft.69c each; 10 for \$5.00
8 to 10 ft.89c each; 10 for \$7.50
10 to 12 ft.\$1.10 each; 10 for \$9.00

Prunus, Othello—Beautiful deep purple leaves. Fruit which ripens early is deep crimson. Prune heavily in early Spring to induce long growth, which is more attractively colored.

4 to 5 ft.69c
5 to 6 ft.89c

Prunus Pissardi (Purple-Leaved)—Leaves are a lustrous crimson, changing to dark purple, and retain this beautiful tint until they drop late in the autumn; no other purple-leaved tree retains its color like this. Flowers small, white, single, covering the tree.

4 to 5 ft.69c
5 to 6 ft.89c

Prunus Triloba (Double Flowering Plum)—Flowers double, delicate pink.

3 to 4 ft.59c

Thorn, Coccinea—Single white flowers followed by scarlet fruits. A fine small tree of densely branching growth. 20-25 ft.

3 to 4 ft.\$1.75

Willow, Babylonica—Well known weeping variety; forms a large round-headed, graceful tree; is quite desirable.

6 to 8 ft.89c

Willow, Caprea (Pussy Willow)—Quick growing tree, useful for tall background or screen purposes, with fur-like catkins along its branches early in the spring.

4 ft.75c

Willow, Golden—Especially desirable on account of its golden colored bark with light green leaves. A splendid grower.

4 to 6 ft.59c

6 to 8 ft.69c

NUT TREES

Butternut—A fine native tree.

4 to 6 ft.98c

Filbert, American (Hazelnut)—Succeeds on almost all soils, bearing early and abundantly.

3 ft.98c

Walnut, English—A fine, lofty growing tree, with handsome spreading head; produces large crops of thin-shelled delicious nuts.

3 to 4 ft.\$1.39

4 to 5 ft.\$1.59

Walnut, Black—Is very productive.

4 to 6 ft.98c

6 to 8 ft.\$1.19

Prunus Pissardi

SHRUBS Beautiful with Flowers (For SPRING, SUMMER, FALL)

A small investment in shrubs at Maloney's 1933 low prices provides a most pleasing setting to your home grounds.

By planting shrubs around your home you give it that refined touch that is in keeping with yourself and family.

Our list of shrubs includes the most desirable deciduous blooming and berry bearing varieties.

PRICE OF ALL TWO YEAR NO. 1 HARDY SHRUBS

2½-3½ feet, 35c each, 10 for \$3.00 (Except as noted)

Varieties* may also be had in 18-24 inch at 27c each, 4 for \$1.00

Sensational Money Saving Offers, see page 7.

*ALMOND, FLOWERING (*Amygdalus*)—Covered in May with rose-colored blossoms resembling small roses. 4 feet.

ALTHEA (*Hibiscus Syriacus*)—Blossoms freely in August and September. Vigorous grower. Also called Rose of Sharon. Double purple, red, pink and white. 6-8 feet.

ARALIA PENTAPHYLLA—Long, slender, gracefully arching branches. Greenish white flowers in long umbels. Valuable for its intense green foliage. 6-8 ft.

BARBERRY, RED-LEAVED (*Berberis Thunbergi Atropurpurea*)—Similar to Barberry Thunbergi but the foliage of this new variety is of a rich, lustrous bronzy red. It becomes more brilliant and gorgeous throughout the summer and in the fall its foliage changes to vivid orange, scarlet and red shades. Scarlet berries remain on the plant the entire winter. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. 3 feet.

18 to 24 in. 45c each; \$4.00 per 10
2 to 3 ft. 50c each; 4.50 per 10

BARBERRY, THUNBERGI (*Berberis Thunbergi*)—Dwarf habit, very graceful and its foliage turns to a beautiful red in the fall. Red berries remaining during winter. 3 feet.

18 to 24 in. 25c each; \$2.25 per 10
2 to 3 ft. 30c each; 2.50 per 10

See page 9 for quantity price.

BARBERRY, BOX (*Berberis Thunbergi Minor*)—Foliage round and dense, and growth so evenly compact, it bears a striking resemblance to Boxwood. Slower and lower growing than Thunbergi, its density allows closer trimming; so that—again like Boxwood—sheared specimens may be trained into perfect globes or pyramids, as well as the cropped hedge.

9 to 12 in. 25c each; \$2.20 per 10
12 to 15 in. 35c each; 3.00 per 10

See page 9 for quantity price.

Red-leaved Japanese
Barberry

CALLICARPA PURPUREA (Beautyberry)—A pretty shrub from 1 to 4 feet high. It blooms profusely during August clusters of pink flowers, these followed by berry bunches colored a light violet.

CALYCANTHUS—Foliage rich, glossy green; flowers chocolate color, having a peculiarly agreeable odor. August. 5 feet.

BUDDLEIA (Butterfly Bush)—Attracts butterflies in large numbers. Produces long, beautiful lilac-colored flowers from early summer till frost. 3-4 feet.

CLETHRA ALNIFOLIA (Sweet Pepper Bush)—Very hardy; blooms every season without fail; cold never harms it; flowers white, spikes three to six inches long. 4-5 feet.

*CORNUS STOLONIFERA (Red Twig Dogwood)—White flowers followed by white berries. In winter branches are blood red. 6-8 feet.

DEUTZIA CRENATA (Double Flowering)—In May is fairly covered with very showy double white flowers, edge slightly tinged with rose. 5-6 feet.

DEUTZIA GRACILIS—Pure white flowers in June. 2 feet.

DEUTZIA LEMOINEI—Flowers large, pure white, produced freely. May. 3 feet.

*DEUTZIA, PRIDE OF ROCHESTER—Beautiful pinkish white double flowers in May. 6-8 feet.

ELDER, AUREA (Golden Elder)—Flowers white, in flat topped cyme; foliage beautiful golden yellow. 10-12 feet.

*EUONYMUS ALATUS (Winged Burning Bush)—Spreading in growth, with peculiar corky bark. Has ornamental scarlet berries. Foliage turns a beautiful crimson in autumn. 8-10 feet.

EXOCHADA GRANDIFLORA (Pearl Bush)—Buds like pearls strung on slender threads and open up to fragrant clusters of pure white, starry flowers. 6 to 10 feet.

FORSYTHIA FORTUNEI (Erect)—Deep yellow flowers in great profusion during April. 6-8 feet.

FORSYTHIA INTERMEDIA (Arching)—Earliest blooming long drooping canes of yellow flowers. April. 6-8 feet.

FORSYTHIA SUSPENS (Weeping)—Slender, limply drooping branches strung with bright rosettes of yellow bloom and shiny leaves. April. 6-8 feet.

FORSYTHIA VIRIDISSIMA—Six-inch olive-green leaves, on heavy upright canes, the flowers greenish yellow with somewhat twisted petals. Early April. 6-8 feet.

HAMAMELIS VIRGINIANA (Witch Hazel)—Valuable because its fringe-like yellow flowers open in November—when there are few other blossoms outdoors anywhere. Fine leaves that color to yellow, orange or purple in fall and drop before the bright yellow flowers appear. 10-15 feet.

*HONEYSUCKLE MORROWI—A spreading variety growing 4-6 feet, with creamy white flowers in early spring, followed by pretty red berries.

HONEYSUCKLE TARTARICA ALBA (White)—Flowers bluish white. Bush hardy and dense. 8-10 feet.

HONEYSUCKLE TARTARICA RUBRA (Red)—Light red flowers. Covered in summer and autumn with scarlet berries. May. 8-10 feet.

*HONEYSUCKLE GRANDIFLORA ROSEA (Pink)—Bright pink flowers. Covered in summer and autumn with orange berries. May. 8-10 feet.

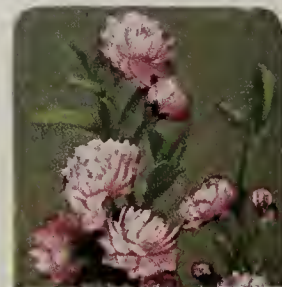

HYDRANGEA GRANDIFLORA (Hills of Snow)—The blooms are of the very largest size, of pure snow-white color in July and August. 3-4 feet.

*HYDRANGEA PANICULATA (P. G.)—Hardy; thrives in all soil; grows rapidly, blossoms profusely. Flowers are pure white, changing to pink, borne in large pyramidal trusses a foot long and six to eight inches in diameter. Blooms early in August, and continues for several weeks. 4-5 ft.

HYDRANGEA PANICULATA (Tree Form)—When in full bloom are very attractive. 3-4 feet. 79c each.

KOLKWTZIA AMABILIS (Beauty Bush)—An exceedingly handsome ornamental shrub which has come to us from the wilderness of China and Central Asia. The foliage and habit are attractive even when the bush is out of flower, and it is perfectly hardy. It grows 4 to 6 feet high when matured, erect and twiggy, producing long, arching branches covered in spring with clusters of small, tubular flowers of the honeysuckle type, borne in such profusion that the bush is one cloud of delicate pink. 5 to 6 feet.

18 to 24 in. 45c each; \$2.00 per 5
2 to 3 ft. 55c each; 2.50 per 5

Almond, Pink

Shrubs are the jewels to appear in Nature's setting of grass.

or Bright with BERRIES (for WINTER EFFECTS)

Forsythia

***LILAC, PURPLE**—The much desired favorite which perfumes the whole neighborhood.

LILAC, WHITE—Like the above except color.

LILACS—FRENCH HYBRIDS. 60c each.

Carefully selected from the world-renowned Highland Park Collection, Rochester, N. Y. Every planting should include a few of these outstanding lilacs.

CHARLES X—Single light lilac.

CHARLES JOLY—Double dark red.

LEON GAMBETTA—Very double, pinkish lilac.

MME. LEMOINEI—Double pure white.

MRS. F. STEPMAN—Single pure white.

PRESIDENT GREVY—Large double blue. Blooms profusely.

PHILADELPHUS (Mock Orange)

***Aureus** (Golden Syringa)—Yellow foliage, white flowers. Very sweet scented. 3-5 ft.

Coronarius (Garland Syringa)—Flowers pure white; highly scented. Double. 6-8 ft.

Grandiflorus—Very large flowers in June. Tall.

Lemoinei—Creamy white flowers in June. A distinct permeating fragrance. 4-5 feet.

Mont Blanc—Large, white, very fragrant flowers. Medium dwarf.

Virginal—A magnificent new variety. Moderately tall, with good foliage and compact habit. The flowers are the largest, handsomest, and most sweetly fragrant of any variety.

***SPIRAEA ANTHONY WATERER**—A dwarf variety of great beauty. Its broad flat heads of red flowers continue in profusion all summer. 3 feet.

SPIRAEA CALLOSA ROSEA—Has large panicles rose-colored flowers. Blooms nearly all summer. 4-6 feet.

SPIRAEA OPULIFOLIA—The heavy white flower umbels in June, make the branches droop; old flower heads turn to dark red, making a striking variety of colors at different stages of maturity. 8-10 feet.

SPIRAEA PRUNIFOLIA (Bridal Wreath)—Plum foliage, in autumn turns to brilliant red. Blooms early, small white flowers. 4-5 feet.

SPIRAEA THUNBERGI—Feathery foliage, which is a peculiar but pleasing shade of yellowish green, changes in autumn to bright red and orange. 3-5 feet.

Weigela, Variegated

SPIRAEA TRICHOCARPA

(Korean)—This splendid new shrub is enthusiastically acclaimed the finest spiraea yet discovered, covered with large rounded clusters of snowy white flowers marked with darker eyes. Blooms about two weeks later than the popular Spiraea Van Houttei. It retains its beautiful glossy green foliage late into the autumn. 4-6 feet.

STEPHENANDRA FLEXUOSA

Branches angular, zigzagged, deep lobed foliage, colors to purplish red; and paniced racemes of white flowers in June. Grows. 3-4 feet.

***SYMPHORICARPOS RACEMOSUS** (Snowberry)—Very ornamental. Small, pink flowers followed by large, waxy white berries, which remain during winter. June and July. 4-5 feet.

***SYMPHORICARPOS VULGARIS** (Coralberry)—Vigorous, quick growing shrub; fruit red. Rose colored flowers in June and July. 4-5 feet.

TAMARIX AFRICANA—The pink flowers, filmy foliage and gracefulness, make them one of the most desirable shrubs for background or inter-planting. Grows in poor, dry soil. Blooms early. 4-5 feet.

VIBURNUM DENTATUM (Arrowwood)—Bright green, heart-shaped leaves turning to purple and red. May and June flowers of creamy white, in umbel-like cymes. The fruits which follow in October are bluish-black. 8-12 feet.

VIBURNUM LANTANA (Wayfaring Tree)—Beautiful wrinkled, Lantana-like leaves; white flowers in May and June. Fruits color unequally from crimson to black, causing a most charming combination of colors throughout the summer. 10-15 feet. 40c each; \$3.50 per 10.

VIBURNUM OPULUS (European Cranberry)—Handsome, dense, brilliant green foliage; a rich setting for large bunches of crimson berries which persist on otherwise bare branches throughout winter. The flowers are in dense cymes about four inches across, pure white. 8-10 feet.

***VIBURNUM OPULUS STERILIS** (Common Snowball)—The common snowball which helps out so bravely for Decoration Day, with its lovely white bloom.

VIBURNUM PLICATUM (Japan Snowball)—Erect, compact, growing 6 to 8 feet. Purple tinted leaves with white ovoid corymbs in June.

VITEX AGNUS-CASTUS—Flower pale lilac-blue. Fragrant, produced in one-sided, paniced spikes 5-7 in. long. Late summer. 8-10 feet.

CHOICE PERENNIALS

Price of Perennials (except as noted) 3 for 40c; 10 for \$1.25; 25 for \$3.00

All Perennials and Rock Garden Plants will be shipped Parcel Post Paid

ALL OUR PERENNIALS WILL BLOOM FIRST SEASON

Because they bloom year after year, Maloney Perennials are the choice of home owners everywhere. From the varieties listed here you can get a continuous succession of colorful blooms from early Spring until late Fall. By all means add a few Maloney Perennials to your order this season.

Achillea, Millefolium Roseum—July to October. Rosy pink flowers in dense heads, on stems 18 inches high. Effective on edge of shrubbery or in border.

Achillea, Ptarmica, Boule de Neige—New. An improvement on "The Pearl" with fuller and more perfect flowers. Best for borders; neat plant.

Anchusa, Dropmore—Very beautiful variety, with large, pale blue flowers in June and intermittently all summer.

Anemone Japonica, Rubra—Beautiful rosy red; stamens bright yellow. September to Mid-November. 2-3 ft.

Anthemis, Tinctoria—Handsome, finely cut foliage, and large golden yellow flowers produced all summer. Succeeds in the poorest soil; excellent cut flowers.

Papaver—Orientale

Aquilegia (Columbine)—Remarkably graceful and beautiful flowers. Excellent for shady borders. Long spurred, red and yellow, golden yellow, white, blue, and mixed. May to July. 55c per 3; \$1.70 per 10; \$3.50 per 25.

Aster—Lovely autumn flowering. Excellent for cutting. Semi-double, deep blue, deep pink. 2-3 feet.

Baptisia, Australis—Dark blue, pea-shaped flowers in June, are produced on top of spikes 2 feet high; very attractive foliage all summer.

Boltonia, Latisquama—Pink, slightly tinged with lavender. 4 to 6 feet—July to October.

Campanula Medium (Canterbury Bells)—**Calycanthema (Cup and Saucer)**—Tall, erect growing plants completely covered with large cup and saucer-shaped flowers during late May and June. One of the loveliest of biennials. Blue, pink and white. 55c per 3; \$1.70 per 10; \$3.50 per 25.

Campanula Medium (Single Canterbury Bells)—These have the same habit of growth and are just as lovely as the Calycanthema, the flowers, however, do not have the so-called "saucer," but are bell-shaped. Blue, pink and white. 55c per 3; \$1.70 per 10; \$3.50 per 25.

Carnations—Dozens of double and single fragrant flowers on long stems. Lovely for cutting. June and July. Red, white, yellow.

Carnation, Allwoodi—Perpetual-Flowering—Hardy Carnation—Joyce—All flowers must be cut with long stems well into the plant, also cut back all long growth in the autumn. Soft rose-pink with amaranth-red center. Blooms entire summer.

Centaurea, Dealbata (Pink)—Large and striking, rose-pink, thistle-like flowers. June-July.

Centaurea, Montana (Perennial Cornflower)—Grows 2 feet high, bearing large, violet-blue flowers from July to September.

Chelone Torreyi—Bears numerous spikes of showy scarlet red flowers. Late summer. 2-3 ft.

CHRYSANTHEMUMS:

Bronze Button—Late, free-flowering, of medium height, producing large heads of tiny button-like, bronze colored flowers. Very hardy and a great bloomer.

Brune Poitevine—The flowers are fairly large, loose in structure and produced in great abundance. The deep velvety reddish-bronze flower petals have a golden reverse. Flowers very early.

Excelsior—Most brilliant golden yellow flowers. Easily grown.

Firelight—Tall, midseason, large flowering. Very showy spikes covered with heads of red flowers tipped with copper. Very hardy.

Lucifer—Late-flowering, hardy sort. Rather tall growing with excellent ox-blood-red flowers. Good, hardy sort.

Nellie Kleris—Midseason, of medium height with splendid clear pink blossoms. Petals are decidedly incurved, and compact. Two inches across.

Snowdrop—Midseason and of medium height, plant rather loosely formed. The best pure white button known; is very hardy.

Zelia—Midseason and rather tall with old-fashioned large orange flowers produced in quantity.

SEE PAGE 7

Perennials are inexpensive and their variation of colors add charm to your garden.

Chrysanthemum Maximum (Shasta Daisy)—Handsome plant, with large, glistening white blossoms in June and July.

Coreopsis Grandiflora—Large bright yellow flowers; one of the best hardy plants. Excellent for cut flowers all summer.

Dianthus Plumarius (Old-Fashioned Pinks)—Rose-pink and white, fragrant flowers on long spikes. Handsome, glaucous green foliage. Will bloom continuously if flowers are cut off when they begin to fade.

Dianthus Barbatius (Sweet William)—This charming old favorite should be in every garden. Red, white, pink and mixed.

Dicentra—Bleeding Heart (Spectabilis)—Long racemes of graceful heart-shaped pink flowers are always attractive; early spring. 40c each; 3 for \$1.00.

Delphinium, Gold Medal Hybrids—The range of colors varies from the palest shade of blue to the deepest indigo blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size in both single and double forms. 3 for 60c; 10 for \$1.75.

Delphinium, Wrexham Hollyhocks—Florets very large and marking unique. Setting along the spikes like hollyhocks. Very beautiful. 3 for 60c; 10 for \$1.75.

Delphinium (Larkspur) Belladonna—Large spikes of sky blue flowers. June until frost.

Delphinium, Formosum—Rich blue flowers tinged with purple and having white eye.

Digitalis (Foxglove) Giant Shirley Hybrids—They are a genuine "Shirley" production, of extraordinary size and vigor, growing 5 to 6 feet tall. The flower heads are over 3 feet long, crowded with big, bell-shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted crimson or chocolate. 3 for 55c; 10 for \$1.70; 25 for \$3.50.

Gloxiniaeflora—A popular variety, deep purple. Robust habit. 3-4 ft. June and July.

Gloxiniaeflora Alba—The white-flowered Foxglove. 2 feet. June and July.

Eryngium—Sea-Holly (Amethystinum)—The true blue Thistle, with amethyst stems and bracts. 2 feet high. July and August.

Gaillardia (Blanket Flower)—Large flowers yellow and orange-red. Early summer to Nov.

Geum, Mrs. Bradshaw—A splendid variety, with large, double flowers of a fiery orange-red, blooming nearly all summer. 3 for 55c; 10 for \$1.70; 25 for \$3.50.

Geum, Lady Stratheden—Rich golden yellow blossoms. Very beautiful. 3 for 55c; 10 for \$1.70; 25 for \$3.50.

Heliopsis, Scabra Excelsa—Chrome-yellow flowers, turning to a bright yellow as they mature. These are almost double. The plant is about 3 feet high, and from mid-July to the end of September makes an effective display.

Hibiscus—Mallow—A tall plant about three to four feet high with immense, white, pink or red, hollyhock-like flowers, freely produced during the summer.

Hollyhocks—Double—This world's favorite is gaining popularity year after year. Pink, red, white, yellow. 6-8 feet.

IRIS—(S—Standing petals, F—Drooping petals).

Alcazar—S. light bluish violet; F. deep purple with bronze veined throat. Striking flower.

Ambassadeur—S. a fascinating smoky velvety purple color; F. velvety purple-maroon; beards and style yellow. 48 inches.

Ballerine—S. light blue-violet, broad and waved at the margin; F. a deeper shade; sweet scented. 36 to 48 inches.

Morning Splendor—Large, tall, velvety red. Good. 40 in.

Pallida Dalmatica, Princess Beatrice—Both standards and falls of a clear lavender-blue shading to a pale silvery blue at the base and sweetly scented. Three feet.

Eleanor Parry—Double. Claret-red, flamed white and blue. Compact, medium sized.

Lathyrus—Latifolius, Pink Beauty—Large racemes of pleasing deep rose flowers.

Latifolius, Red—The well known red Everlasting Pea.

Latifolius, White Pearl—A great improvement on the older white variety, the stems giving from 12 to 15 flowers each.

Lupines—Beautiful spikes, 3-4 feet high of pea-shaped flowers. Blue, white, rose. June. 3 for 55c; 10 for \$1.70; 25 for \$3.50.

Lychnis, Haageana—1 foot. June to August. Very showy, producing orange-red, scarlet or crimson flowers nearly two inches across. Should be planted in light shade. 3 for 55c; 10 for \$1.70; 25 for \$3.50.

Columbine

Lychnis, Viscaria Splendens—Pink form of the above. 3 for 55c; 10 for \$1.70; 25 for \$3.50.

Lythrum, Superbum Roseum—Very showy rosy purple spikes about 2 or 3 feet high, produced in profusion all summer. Splendid for banks of streams and ponds.

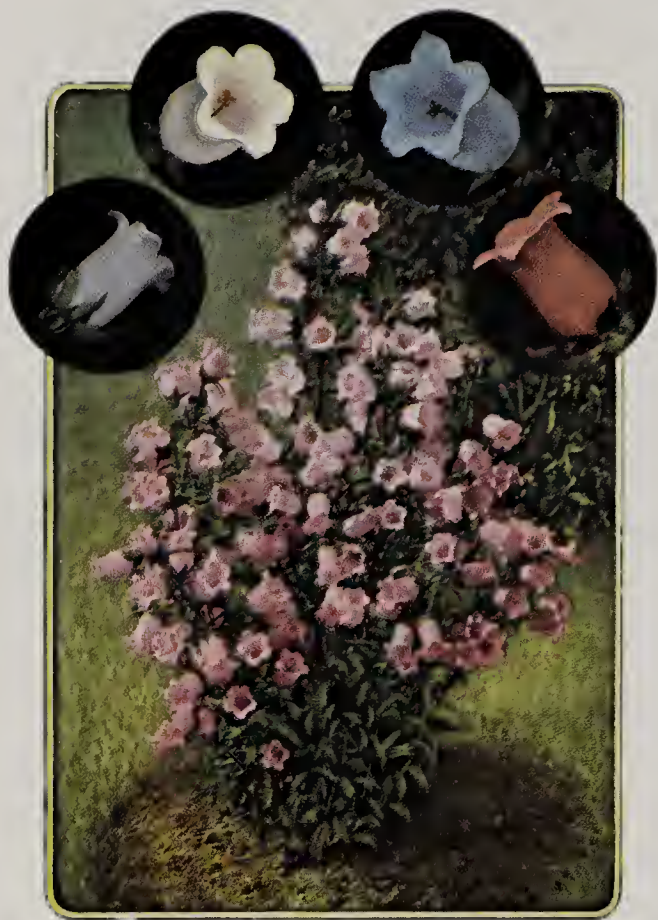

Chinese Lantern

Gaillardia

These Perennials glory in blooming lavishly year after year.

Maloney Perennial varieties particularly well selected.

*Campanula Medium*

Mrs. Scholten—New dark salmon-pink flowers in enormous pyramidal spikes. A splendid sort of great value. Midseason flowering and of medium height.

Monarda—Didyma, Cambridge Scarlet—Brilliant crimson-scarlet flowers are produced freely from June until August.

Papaver Orientale (Oriental Poppy)—Tremendous cup-shaped blooms of brightest crimson-scarlet, with large, purplish black blotches at base of petals.

Papaver Orientale, Mrs. Perry—Orange-apricot, and a very fine variety, the best of all the "Pink Poppies." 55c per 3; \$1.70 per 10; \$3.50 per 25.

Physalis, Francheti (Chinese Lantern)—Dense bushes about two feet high, producing freely its bright orange-scarlet, lantern-like fruits, which when cut, will last all winter.

Platycodon, Grandiflora—Large, showy, deep blue flowers on 20-inch spikes are produced all summer.

Pyrethrum (Painted Daisy)—They produce showy red and pink flowers freely on long stems throughout the summer, but more especially in May and June, which are of inestimable value for cutting.

Rudbeckia, Newmanni—Deep orange-yellow flowers with a dark purple cone; long, wiry stems 3 feet high; blooms all summer.

Rudbeckia, Purpurea (Giant Purple Coneflower)—Most attractive purple flowers, with a very large, brown, cone-shaped center. Blooms from July to October. 3 feet high.

Sedum, Spectabile—One of the prettiest erect-growing species, attaining a height of 18 inches, with broad, light green foliage and immense heads of handsome, showy, rose colored flowers; indispensable as a late fall-blooming plant.

Stokesia, Cyanea Coerules—Beautiful light blue flowers are produced profusely in late summer and early autumn on 18-inch stems; lovely for cutting.

Thalictrum (Meadow-Rue) Dipterocarpum—Flowers a charming shade of lilac-mauve, which is brightened by a bunch of lemon-yellow stamens and anthers. 4 feet. August and September. 60c per 3; \$1.75 per 10; \$3.50 per 25.

Tritoma (Red Hot Poker)—Pfitzeri—Spikes 3 to 4 feet high, and heads of bloom of a rich orange-scarlet. August to October.

Veronica, Spicata—Long spikes of violet-blue flowers all summer; 24 inches tall.

PHLOX (July and August)**22c each; 60c per 3; \$1.85 per 10**

Africa—Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stem.

Enchantress—Bright salmon-pink with dark eye; rich green, glossy foliage.

Miss Lingard—It flowers from early June until October with large heads of white flowers with faint pink shadings in center. It is the best early white Phlox known.

Fuerbrand (Fireglow)—Brilliant orange-scarlet. Sometimes almost vermilion. Flowers very freely and blooms are produced in quantity throughout the entire season. Of medium height, and one of the most brilliant Phlox known.

Mrs. Milly Van Hoboken—An excellent new variety. Very large florets combined in rather loose, large heads. Color bright pink with a slight and delicate mauve suffusion. Strong grower and free-flowering. The general color effect, at a distance, is a fine bright pink.

Von Lassburg—A splendid midseason, tall, white variety. Trusses large and stems good, very free flowering.

*Delphinium**Monarda**Crimson Glow Gladioli*

Every yard requires variety for beauty. Perennials offer variety.

GLADIOLUS (Late Fall)**20c per 3; 55c per 10; \$1.15 per 25****Alice Tiplady**—Soft, orange saffron shade. Extra fine.**Anna Eberious**—Velvety violet purple, throat deeper color.**Byron J. Hulot**—Tall plant, medium size flowers, dark, velvety purple.**Byron L. Smith**—One of the very best. Very fine.**LILY BULBS****Auratum**—Large, fragrant flowers of a delicate ivory-white color, thickly studded with chocolate-crimson spots and striped through the center a golden yellow, 3-5 feet. July to Sept. 8-9 inches. 35c each; 95c per 3; \$2.80 per 10.**Speciosum Album**—White, with a green band traversing the center of each petal. 8-9 in. Aug. 50c each; \$1.40 per 3; \$4.00 per 10.**Speciosum Magnificum**—Flowers of rich, deep red. 8-9 in. Aug. 35c each; 95c per 3; \$2.80 per 10.**The Regal Lily**—Spikes of medium height, bearing several large, fragrant blooms on a stem. White with yellow center, shaded rose on outside of petals. 7-8 in. Early July. 50c each; \$1.40 per 3; \$4.00 per 10.**PEONIES (3-5 Eyes)**

The Peony is lavish in its bloom and makes a pretentious showing; particularly well suited for planting in the foreground of shrub borders.

Alexandre Dumas (7.1)—Light violet-rose. Early. 40c each.**Edulis Superba (7.6)**—Brilliant rose pinkish center. Early. 35c each.**Felix Crousse (8.4)**—A rich, brilliant, dazzling ruby red. 45c each.**Festiva Maxima (9.3)**—Pure white with crimson markings in the center, fragrant. Early 30c each.**Louis Van Houtte (6.9)**—Large, dark crimson purple. Late. 30c each.**Mme. Ducei (7.9)**—A compact, bomb type of mauve-pink and silver. 40c each.**Model of Perfection (8.9)**—Very late, very double, pyramidal shaped flower of a light soft violet-rose with shades of flesh pink, marbled and veined with bright rose and silver tipped. 45c each.**Selected Rock Garden Plants****Price of Rock Garden Plants****55c per 3; \$1.70 per 10; \$3.50 per 25, postpaid****Alyssum, Saxtile Compactum**—Broad masses of bright yellow flowers in early spring. 1 foot.**Anchusa, Myosotidiflora**—Charming blue flowers resembling forget-me-nots. An effective rock plant for shady or sunny places. May and June. 12 inches high.**Arabis, Alpina**—Pure white flowers produced in dense masses, splendid for border and rockery.**Arenaria, Montana**—Close tufts, profusely covered with small, silvery white flowers quite early in the season. The flowers in May resemble small white upturned morning glories.**Armeria, Lauchiana**—Bright rosy red, very free flowering. 3-6 inches. May-June.**Campanula Carpatia**—A pretty plant growing in compact tufts not exceeding 8 inches. Blue and white June-October.**Dianthus Deltoides**—A beautiful little prostrate plant with narrow leaves, and bearing a profusion of small, crimson flowers. June-July.**Gypsophila Repens**—A beautiful trailing plant with clouds of small, white and pink flowers. July-August.**Helianthemum (Sun Rose)**—Dwarf, Evergreen, form dense masses of pleasing foliage studded with brilliantly colored flowers.**Heuchera Sanguinea**—Beautiful bright crimson flowers on stems 12-15 inches. Free flowering, excellent for cutting.**Iberis Sempervirens**—In spring the beautiful white flowers completely cover the rich, dark green leaves.**Oenothera Missouriensis**—A low specie with prostrate, ascending branches; profuse bloomer. Solitary flowers, often 4 inches across. June-August.**Phlox Subulata**—An early spring flowering type with pretty, moss-like, evergreen foliage, which during April and May is hidden under a mass of bloom. White and blue.**Saxifraga Rosea**—A showy spreading plant with drooping masses of pink flowers, high above the clustered leaves. April to June. 1 foot.**Sedum Acre**—Bright yellow flowers, plants prostrate and slowly spreading.**Sedum Spurium Coccineum**—Flowers beautiful rosy-crimson. Fast spreading. 6 inches. July and August.**Statice Latifolia**—Immense heads, frequently 1½ feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried last in perfect condition for months.**Tunica Saxifraga**—A pretty tufted plant with light pink flowers, produced all summer. 6 inches.**Viola (Tufted Pansies)**—This is the best edging plant. Remains in full bloom from May until October. Do not allow flowers to go to seed. Apricot, Black, Blue, Pink, White, Yellow.**Yucca Filamentosa**—Broad, swordlike, evergreen foliage. Immense branching spikes of drooping, creamy white flowers. 6 feet high.*Chrysanthemum**Coreopsis***Maloney's Pay Shipping Costs • See page 7**

Florists charge big prices for these blossoms that you can grow.

SEED DEPARTMENT

VEGETABLES rapidly lose their finest delicacy of flavor after picking. Unless you have tasted vegetables served on your table a few hours after picking, you don't know how delicious they can be. In a corner of your grounds this season plant a few of the popular varieties listed here. They are the same high quality that we sell to commercial growers and farmers who know quality. You'll enjoy these immensely. Cut table cost by growing your own vegetables from Maloney reliable seed.

SPECIAL—Regular trade packets formerly offered at 10c (same amount of seed) now reduced in price to 7c per packet; 4 packets for 25c, postpaid. Order early.

BEANS

Beans are easy to grow.
Valuable for home Garden.

Plant rows 2 ft. apart, seed 2 in. apart.

Price of all Beans: Pkt. 7c; ½ lb. 20c; 1 lb. 30c.

GREEN PODDED BUSH BEANS

Early Bountiful—One of the earliest; continues bearing a long time. Rust and mildew proof.

Stringless Green Pod, very prolific, highest quality, stringless.

WAX or BUTTER BEANS

Golden Wax, clear light yellow, stringless of good quality.

Black Wax, golden yellow, very prolific, seeds black.

BEETS

A few rows in the garden will furnish Beets continuously throughout the season.

Plant rows 18 inches apart; thin to a stand of 4 inches apart.

Price of all varieties:

Pkt. 7c; ¼ lb. 25c; ½ lb. 75c.

Crosby's Egyptian—This is the best beet for early use.

Detroit Dark Red—Smooth, blood red, tender,

SWEET CORN

Pollen fertilizes better when two or more rows are planted side by side.

One packet will plant 40 hills; ½ lb. 200 hills; 4 ft. rows, hills 1 ft. apart.

Price of all varieties of Corn:

Pkt. 7c; ½ lb. 20c; 1 lb. 30c.

Stowell's Evergreen, best of the white corn, standard variety. 105 days.

Golden Bantam (65 days)—Kernels a rich golden yellow; flavor deliciously rich and pleasing—most popular sweet corn.

CARROTS

Carrots are one of the most healthful vegetables grown.

Plant rows 15 inches apart; thin in rows to 3 inches apart. A packet will sow 60 ft. of row.

Price of all varieties:

Pkt. 7c; ¼ lb. 40c; 1 lb. \$1.25.

Chantenay—The most popular carrot for general use; grows 6 to 7 inches long. The color is deep orange and fine grained.

Danvers Half Long, most popular of all carrots, 6 to 7 in. long.

Long Orange—The roots are an immense yielder.

CUCUMBERS

Do not fail to have a bed of cucumbers for salads or for pickling. A fine crop may easily be grown.

Pkt. 7c; ¼ lb. 40c; 1 lb. \$1.20

Early Cluster, fine for pickling or for slicing. 5 to 6 inches long.

Boston Pickling, splendid pickling sort, 6 to 7 inches long.

LETTUCE

Easily grown; making successive sowings and using the lettuce as it is thinned, you can keep a supply throughout the season. Plant in rows one foot apart, thin out plants ten inches apart in rows. A packet will sow about 30 feet of row; an ounce 250 feet.

Price—all varieties:

Pkt. 7c; ¼ lb. 40c; 1 lb. \$1.25.

Big Boston—Forms large compact heads and is one of the most popular varieties. Big Boston is one of the best varieties for late crop, as it heads well in cold weather and is not injured by slight freezing.

Early Curled Simpson—Forms a bunch of very much curled leaves of light green earlier than head lettuce.

New York ("Wonderful," "Iceberg")—

Forms compact white heads as large as a small cabbage. The leaves are deep green, crinkled, very large. The heads are round or oblong, very large, compact, and almost perfectly white inside.

ONION SEED

To raise good onions from seed, soil must be rich and mellow. Sow seed early in rows 15 inches apart.

Price of all Onions:

Pkt. 7c; ¼ lb. 50c; 1 lb. \$1.70.

Yellow Globe Danvers, the most popular yellow onion for home garden. Our selection.

Red Weathersfield, best red onion, produces well in poor soil as well as rich soil. Keeps well.

White Portugal, can be grown for large onion or when young a favorite for green onions.

PEAS

Peas are tender, delicious—Sow plenty of Peas. 1 lb. will sow 100 ft. of drill.

Price of all Peas: Pkt. 7c; ½ lb. 20c; 1 lb. 30c.

Alaska—One of the earliest kinds. Small pods.

Premium Gem, one of the best home garden varieties, wrinkled, medium.

Telephone, very prolific.

RADISHES

Radishes are easy to grow and very appetizing. Sow in rows 12 inches apart and thin the plants to 2 inches apart. A packet will sow 20 feet of row.

Price of all Radishes:

Pkt. 7c; ¼ lb. 25c; 1 lb. 70c.

French Breakfast, excellent for home garden, oblong with scarlet top and white bottom.

Early Scarlet Globe—Large roundish oval; brilliant red; flesh white, solid, crisp and mild.

Iceberg—Remains crisp and sprightly an extremely long time; most excellent flavor and transparent whiteness.

TOMATOES

Sow seed in hot beds early, during late March. Set plants in garden 2½ ft. apart.

A packet will produce about 150 plants.

Price of all varieties:

Pkt. 7c; ½ oz. 20c; 1 oz. 35c.

Chalks Jewel, large smooth fruit of a rich scarlet red. Slices well.

Earliana—Remarkable for its earliness, large size, uniform shape, solid fruit, attractive red color and productiveness. Leading high quality early market variety.

Ponderosa—Large size, very solid with few seeds; a beautiful crimson.

SPINACH

Spinach is an excellent health builder.

Sow in drills 12 to 14 inches apart.

1 oz. will sow 100 ft. of drill.

Price of all varieties:

Pkt. 7c; ¼ lb. 20c; 1 lb. 60c.

Bloomsdale, standard variety plants upright and compact of large size.

New Zealand—Will grow during hot dry weather when other spinach would be useless and will continue to furnish nice "greens" all summer.

TURNIP

Here is an important nutritious vegetable that should be in every garden.

Pkt. 7c; ½ lb. 25c; 1 lb. 40c.

Purple Top White Globe, best for table use, fine grained and very tender.

Rutabaga or Swede, American Purple Top.

Earliana Tomato

Eclipse Beet

Telephone Golden Bantam

Maloney's vegetables offer choicest quality with real economy.

ANNUAL FLOWER SEEDS

Large size packets, price 10c postage paid

Choice annuals which give a wonderful array of color—Planted with perennials or planted in beds or borders

ASTERS

Asters are valuable for cutting. By making a selection of early, medium and late varieties offered, will give you flowers the entire season.

Branching Asters, Mixed Colors. *Pkt. 10c.*

Giant Crego Asters, Mixed Colors. *Pkt. 10c.*

CALENDULA

The old-fashioned English "Marygold"; one of the best and showiest free-flowering hardy annuals, growing in any good garden soil. They are very effective in beds or in mixed borders, where they bloom from early summer until frost.

Mixed Colors—All double varieties. *Pkt. 10c.*

COSMOS

These are among the most popular and easily grown annuals, making a wonderful display in beds and borders, furnishing an abundance of cut blooms in the fall when other flowers are scarce. Sow the seed early.

Early Flowering Giant—Flowers large with large overlapping petals, and on long, graceful stems. *Mixed. Pkt. 10c.*

NEW DOUBLE CRESTED—Flowers are double-crested, having double centers with a row of petals around the base. *Mixed. Pkt. 10c.*

LARKSPUR ANNUAL

Well known garden flower. Fine to plant with perennials since a wider range of color is obtainable in seed.

Annual—Mixed shades of blue and pink. *Pkt. 10c.*

MARIGOLD

The African and French Varieties are old favorites because of their free flowering. The African are solid color and dwarf French are fancy striped.

Tall African—Mixed shades of yellow. *Pkt. 10c.*

Dwarf French—Mixed shades of yellow. *Pkt. 10c.*

NASTURTIUMS

Extremely popular because they grow rapidly and bloom within a few weeks. The color being so vividly bright and cheery make them a fine addition to any garden.

Dwarf Mixed—Produce enormous flowers on long stems. *Pkt. 10c.*

Tall Mixed—The best tall or climbing variety. *Pkt. 10c.*

Aster

PETUNIAS

Few annual plants equal in effectiveness the Petunia for growing in beds and borders or in window or porch boxes. They commence flowering early and continue a sheet of bloom until frost.

Striped and Blotched—Mixed colors and various designs. *Pkt. 10c.*

ANNUAL PHLOX

Annual Phlox—What garden is complete without the vivid colors of annual phlox. Flower continuously throughout the entire summer.

Mixed Colors. *Pkt. 10c.*

Star Phlox, Mixed Colors. *Pkt. 10c.*

SCABIOSA (Mourning Bride)

It is very easily and quickly grown, blossoms very freely during the summer and fall.

A splendid mixture of all the colors. *Pkt. 10c.*

Stock, double—One of the most beautiful of flowers, bright colors of every hue borne on spikes. Fine for cut flowers.

Mixed Colors. *Double Pkt. 10c.*

SWEET PEA

Plant where there will be uninterrupted sunlight, in as good soil as possible. Seed should be sown before the first of April if weather will permit, about 6 inches down in the trench, and covered with an inch of firmly pressed soil. Thin out to 2 to 4 inches apart.

Early Flowering Sweet Peas

Spencer Mixture—This is a wonderful blend displaying a wide range of colors and shades. *Pkt. 10c.*

Summer Flowering Sweet Peas

Summer Flowering Mixed—A great many varieties and colors grown as a high-grade mixture; *Pkt. containing 1/2 oz. 10c; oz. 15c.*

Lady Ruffles—This is the most beautiful of the Giant Ruffled Sweet Peas yet produced. The blooms are large, well rounded, and exquisitely frilled and ruffled. The color is a soft pink self on white ground. *Pkt. (20 seeds) 25c.*

VERBENA

Of all the flowers Verbena seems to be the most consistent bloomer and produces such rare colors that it is a delight to all flower growers—easily grown. By all means put this seed in your garden.

Mixed Colors containing all shades of red, pink, blue and yellow. *Pkt. 10c.*

ZINNIAS

Every planting should include Zinnias.

There is no other easily grown annual flower that will make such a brilliant display from July until frost.

They can be sown in rows, in beds or among the perennials to fill in the unsightly bare gaps left by the early flowering perennials or bulbs.

They don't need to be transplanted. Just sow the seed where you want the flowers. All they need is plenty of sunlight, good soil.

Mixed Colors of the giant Colossal Zinnia. *Pkt. 10c.*

GRASS SEED

There are many different kinds of soil. We can serve you best by writing us stating kind of soil you have, if clay, sandy, muck, etc., stating also space to be covered. Then we will advise you best kind of seed to use and price on quantity required.

FRUIT TREES

Upland Grown—True to Name Lowest Prices in 20 Years

Bradshaw Plum

You will never know the highest satisfaction of fruit until you eat it freshly picked, fully ripened and out of your own Garden.

FRUIT TREES—A LIFETIME INVESTMENT

This year is Buyers' Opportunity.

Do you know this spring cleans up the last big supply of fruit trees—which is the true situation all over the United States. Statistics show there will be only one-half a normal supply of fruit trees for the next 3 years.

Should nurserymen plant heavily on fruit tree seedlings this spring "which they won't" it would be Spring 1936 before a normal supply would be on the market again. **YOU WILL EFFECT BIG SAVINGS BUYING SPRING 1933.** Our hardy upland grown true-to-name trees for this Spring's delivery are the finest grown. Our varieties consist of newest and best of the old. An orchard will net greater returns annually than any farm crop.

There is a rapid return to the planting of fruit trees in the yard and garden for people realize the fruit helps in cutting kitchen costs.

RATES—Less than 10 at each rate, 10 to 50 at 10 rate, 50 or more at 100 rate.

Maloney Apples are all certified or inspected for true-ness to name by Dr. J. K. Shaw, Mass. Fruit Growers' Ass'n, Amherst, Mass.

All varieties certified can also be had in inspected trees.

SUMMER VARIETIES

Early Harvest—Pale yellow; fine flavor. Late July.

*Early McIntosh—Size of fruit about that of McIntosh and is similar to and quite equal in flavor. July.

*Red Astrachan—Fruit large, crimson, juicy. July and Aug.

Sweet Bough—Large, pale yellow; sweet and juicy. Aug.

William's Early Red—Dark red; flesh crisp, juicy. Aug.

Yellow Transparent—Medium size, yellow, sub-acid. Aug.

AUTUMN VARIETIES

Duchess of Oldenburg—Medium size; red striped; juicy. Aug.

Fall Pippin—Large, yellow, tender, juicy and rich. Sept.

Maiden's Blush—Large, pale yellow with red cheek. Sept.

Pound Sweet—Large, round, yellow russet. Oct.

*Red Gravenstein—This red sport is more attractive than Gravenstein. It differs from it only in the solid dark red colored fruits.

WINTER VARIETIES

*Baldwin—Large, strong, vigorous trees; produces an abundance of large apples of a bright red color, with yellowish, crisp, tender, very juicy flesh. Nov. to April.

Ben Davis—Fruit large, red striped. Jan. to June.

*Cortland—A beautiful red apple, larger than McIntosh and matures a month later. Excellent quality, keeps late in winter and fine shipper. Nov. to Feb.

*Delicious—Fruit large, nearly covered with brilliant dark red. Flesh fine grained, crisp, of highest quality. A splendid keeper and shipper. Nov. to Apr.

Fameuse—Medium size; deep crimson, flesh white. Oct. to Dec.

Golden Russet—Medium size, clear golden russet with slight flush; juicy, high flavored. Nov. to Apr.

Grimes Golden—Medium to large size, skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly. Dec. to Apr.

*Jonathan—Fruit red, highly flavored. Tree productive and early bearer. Nov. to Jan.

King—Flesh yellow, crisp, tender, juicy, sub-acid. Skin yellow, mottled with orange red. Oct. to Jan.

*McIntosh Red—An exceedingly valuable, hardy, attractive apple; good size, nearly covered with red. Flesh white, fine, tender, juicy and refreshing. Tree hardy, vigorous, a good annual bearer, comes into fruiting early, yielding large crops. Oct. to Jan.

Newton Pippin—Large, yellow, delicious flavor. Nov. to May.

*Northern Spy—A hardy, large, red apple. Flesh juicy, rich, crisp, tender. Tree healthy, strong grower, rugged. Dec. to Mar.

N. W. Greening—Large, greenish yellow, juicy. Oct. to Apr.

Opalescent—Fruit large, yellow, mildly sub-acid. Nov. to Feb.

Rambo—Medium size, red and yellow; mild flavor. Dec.

*Red Spy—A splendid bright red Spy, without stripes or splashes. It has been recommended by the N. Y. State Fruit Testing Co-Op. Ass'n. Dec. to Mar.

*R. I. Greening—Large, flesh yellowish, firm, fine grained, crisp, tender, juicy, slightly subacid, very good. Skin yellow. Keeps until April, ripens in Dec.

WINTER VARIETIES

*Rome Beauty—Large, round, mottled and striped red. Flavor and quality excellent. Dec. to Mar.

Smokehouse—Yellow mottled with dark red. Oct. to Mar.

Stayman's Winesap—Medium to large, green and yellow. Flesh yellow. Bears young and annually. Dec. to Apr.

Sweet Delicious—Fruit resembles Delicious in shape. Deep yellow, lightly colored with a solid dark red. Flesh yellow, firm, tender and juicy. Nov. to Jan.

Tolman Sweet—Yellow, flesh white, rich. Nov. to Apr.

Twenty Ounce—Very large, yellow striped red; fine quality; good keeper Oct. to Jan.

*Wagener—Fruit medium, tender, firm and juicy. Bright pinkish red. Dec. to May.

*Wealthy—Large, roundish, skin smooth, oily, covered with a dark red. Flesh white, tender, juicy. Oct. to Jan.

Winter Banana—Large, perfect form, golden yellow; flesh lemon yellow, fine grained. Nov. to Jan.

York Imperial—Medium size, skin yellow almost covered with red. Nov. to Feb.

BEST HARDY CRAB APPLES

Hyslop—Fruit deep crimson. Oct.

Whitney—Flesh yellowish, crisp and juicy. August.

New Varieties Recommended by Fruit Testing Associations

Age	Height	Each	10	100
2 yr.	5-7 ft.	\$.75	\$6.00	\$35.00
2 yr.	4-5 ft.	.65	5.00	30.00
2 yr.	3-4 ft.	.55	4.00	25.00
1 yr.	3-5 ft.	.65	5.00	30.00

Macoun—Red-skinned, white fleshed, richly flavored. Trees bear regularly and heavily. One to two months later than McIntosh. (1 yr. only.)

Medina—Resembles Delicious but is much larger and is more attractive on account of the golden yellow ground color.

Milton—Fruit attractive pinkish-red; flesh white, tender, crisp, juicy, and of McIntosh flavor and aroma. Ripens month later than Early McIntosh.

Red Rome—All the fine qualities of Rome Beauty, except solid red without stripes. Tree stronger grower. December to March. (1 year only.)

Prices on Blaxtayan and Richared Apple Trees

Age	Height	Each	10	100
2 yr.	5-7 ft.	\$1.00	\$8.00	\$50.00
2 yr.	4-5 ft.	.90	7.50	45.00
2 yr.	3-4 ft.	.85	7.00	40.00
1 yr.	3-5 ft.	.90	7.50	45.00

Blaxtayan—A beautiful solid red without stripes. Does not crack at the stem; crisp and juicy. Has a finer texture and a thicker skin than the regular Staymans and will not scald in storage.

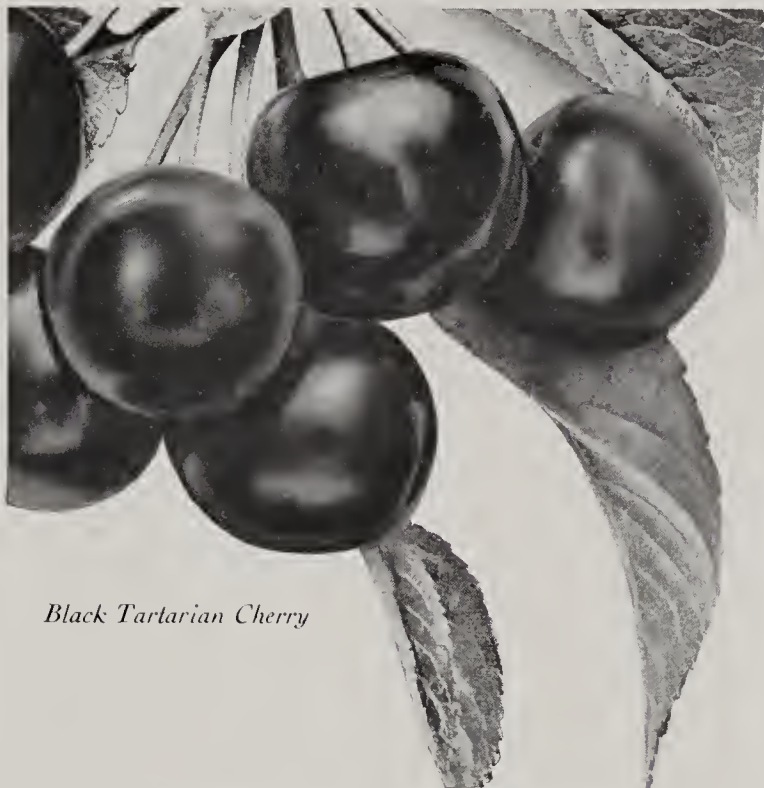

Richared—A "Super Delicious." This marvelous new variety has all the splendid qualities of the common Delicious—the same distinctive shape and famous flavor. Solid lustrous red, without stripes.

Maloney's Radio Service Will Continue

For several years Maloney Bros. have broadcast advice on planting problems.

Thousands have attained helpful suggestions on what to plant, how to plant and how to care for stock to secure the largest yield. These talks will be given over WGY Schenectady and WHAM Rochester, the second week in February, continuing through to the first week in April.

You Get Better Stock In Buying From Grower

Nature designed plants to live in the cold outdoors the entire winter and until late spring. Buildings where the temperature is comfortable to people—75° to 80°—are too warm for the good of dormant plants. The roots may dry out; if so, the plant may be weakened or, even killed. Maloney plants are kept in natural conditions, and fresh dug just before shipment. You don't have to replace Maloney stock; it grows—rapidly—and bears lavishly. Maloney's pay shipping costs, see page 7.

SWEET CHERRIES

Bing—Flesh solid, flavor of the highest quality. July.

Black Tartarian—Produces immense crops of purplish black fruits. Late June.

Governor Wood—Large, light yellow; juicy, rich. Late June.

Lambert—Large cherries; almost jet black when ripe. Flesh firm, rich. Late July.

Napoleon—Fruit borne generally in twos, very large, light lemon yellow with red cheeks. Flesh very hard. Late June.

Schmidt's Bigarreau—Large size, deep mahogany color. Flesh dark, tender, juicy, rich flavor. July.

Seneca—Ripens the first week of June; fruit large, skin thin, tender; purplish black, indistinctly mottled; flesh tender, spicy flavor.

Windsor—A splendid, large, liver-colored cherry; flesh remarkably firm and good. July.

Yellow Spanish—Large, pale yellow, with red cheek; firm, juicy and excellent. Late June.

SOUR CHERRIES

Dyehouse—The earliest sour cherry of fine quality. Early June.

Early Richmond—Fruit is medium size, round and dark red. Flesh tender. Late June.

English Morello—Easily grown, producing heavy crops. Fruit dark red, quality good. Aug.

Montmorency—The best sour cherry; good sized, fine flavored and bright, clear red. Flesh is of fine quality and sub-acid. Early July.

Wragg—Hardy, vigorous and productive; medium, dark purple, fine quality. Aug.

The varieties listed can be depended on to bear early and annually luscious fruit which is thoroughly appreciated for table use and canning. Cherry trees require but little space. Plant 15 ft. apart.

OWING to increasing calls from our customers for trees for rear lawn planting, which will fruit in two years, we are offering a tree which will meet this demand. The bearing-age tree: We mean by this, trees which have been once transplanted and scientifically treated. Maloney's have nursed them until they have developed into just the kind of tree to fill your table with delicious, healthful fruit. A great many people make the very serious mistake of selecting small trees for their garden planting, when for a small additional investment they can enjoy the wonderful bearing-age, early fruiting tree.

PLANTING INSTRUCTIONS

Cut off about six inches of the limb growth, prune off bruised ends of roots, if any, make a smooth cut, dig hole deep enough so that the tree will be buried to the same depth as when standing in the nursery row, or up to the collar—soak roots in the water one-half hour, place trees in hole, fill in one-fourth, tread well; another one-fourth, tread well, the third one-fourth, tread well; then finish filling and tread firmly so that when the tree is set it would require a strong man to pull it out.

Prices Must Be Higher During Next 3 Years

It takes 3 years from the planting of the seedling to raise a 2-year-old tree for market; the same is largely true of many shrubs and flowers. The 1929 plantings are being sold this year. But, since 1929, nursery plantings have been far smaller than usual, due to business conditions. Scarcity always brings higher prices. Maloney prices are very low this year. You will save money by buying your needs this spring from this Catalog.

Chester, Mass.

Gentlemen:—

Our trees arrived in fine shape and we are more than pleased with them.

I have bought several thousand trees on farm that I was manager for, but I never saw any such a lot of beautiful, straight, uniform trees as these all are. Mr. Armstrong says the same—and the roots are very fine.

Steam digging is a great improvement over plowing them out.

We both thank you very much.

Sincerely yours,

JOY & ARMSTRONG.

Dwarf Fruit Trees

Dwarf Fruit Trees require less space, bear larger fruit and several years earlier than standard trees. The low, broad heads are within reach, so that the fruit can be easily picked. Dwarf trees should be planted 15 feet apart. Because of their extremely early bearing qualities and the attractiveness of the tree they are adapted to yard and garden planting—A Good Buy.

Raspberries

"How Big Profits Can Be Made Quickly"

We are always desirous of rendering helpful service to our patrons and prospective customers. At this time wish to acquaint you with the wonderful opportunity awaiting you to ease the financial strain quickly.

Dear Friends, do you know when planting an acre of raspberries, red or black, 2400 plants 3 feet apart, that you can pick a quantity of fruit the first summer and each succeeding year from \$600 to \$1000 per acre, requiring but little care and succeeding in any reasonably good soil?

During this depression when prices on all other commodities are down, berries brought 25 to 30c per quart the past season and a ready market for them.

Home owners can cut living cost substantially by planting berries for it requires only 600 plants to set one fourth of an acre. Farmers, who have available land and even people living in Villages will make big profits renting land for planting berries. "Growing Berries is no gamble—You can't lose."

Price of No. 1 Strong Best Selected Red and Black Raspberries, Except as Noted; 25 for \$1.10; 100 for \$2.95; 500 for \$12.75; 1000 for \$24.50.

PARCEL POST—Raspberries can be sent by parcel post, postage prepaid, for two cents per bush extra.

Cuthbert Red—Yields bountifully. Large, bright red berries.

Cumberland Black—Splendid quality. Fruit large. Mid-season.

St. Regis Red (Everbearing)—Ripens with the earliest, continues until October. Bright crimson. Large size.

Plum Farmer (Black)—Very large and productive. Ripens early.

Columbian Purple—Fruit very large, rather soft; rich, sprightly flavor. 25 for \$1.50; 100 for \$3.75; 500 for \$17.50; 1000 for \$32.50.

Chief (New)

Berries are dark red, good size, extra firm and hold up a long time after picking. Yields 15 to 30 per cent more than other Raspberries. Withstands dry, hot weather better than other varieties, and has never been known to suffer winter injury. Stand long distance shipping. Ten to twelve days earlier than Latham. 25 for \$1.75; 100 for \$5.00; 500 for \$18.00.

Latham

A superb success in quality, production and profits. It has been truthfully said that Latham leaves nothing to be desired in a Red Raspberry. Latham berries are mammoth, dark red, of uniform size, and present a beautiful sight on the bushes and in boxes. Never fail to bring \$1.00 or more per crate above the price of other varieties. Fruit clings to stems several days after fully ripe. You cannot believe, until you see for yourself what tremendous loads of fruit Latham Plants bear! Extremely hardy and Mosaic free. 25 for \$1.75; 100 for \$4.00; 500 for \$17.50; 1000 for \$32.50.

Blackberries

Price of No. 1 Strong Plants, Best Selected Varieties, 25 for \$1.25; 100 for \$3.75; 500 for \$17.50; 1000 for \$32.50.

(By Parcel Post two cents each extra)

Blowers—Claimed to be the hardiest, most productive, of finest quality and to bring the highest market price.

Eldorado—Berries large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

Latham

Dewberries

Lucretia—It equals any of the tall growing sorts. Perfectly hardy, healthy and remarkably productive, with large, showy flowers. The fruit, which ripens early, is often 1½ inches long by 1 inch in diameter, soft, sweet and luscious. 25 for \$1.25; 100 for \$4.00.

Gooseberries

Price; Two Year Bushes, 25c each; \$2.00 for 10.

Downing—Fine quality, vigorous growth and free from mildew.

Josselyn—Marvelously productive. Large size, dark red.

Cuthbert

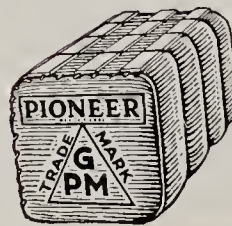

VIGORO

Is an excellent fertilizer for general use on lawns, vegetable and flower gardens. Directions for use on each package.

Prices: 25 lb. bag \$1.50
50 lb. bag 2.50
100 lb. bag 4.00

PEAT MOSS

We know of no better material to improve the physical condition of your lawn. It makes heavy soil more friable and light sandy soil hold moisture better. A single bale will make 19 to 20 bushels of loose material, enough to cover about 300 square feet 1 inch deep. Price per bale \$3.50.

Plum Farmer

Berries bring a gold mine to every farm, joy to every home.

Maloney's Grapes

Price, Two Year, No. 1, Strong Vines, Except
Where Otherwise Noted: 23c each; 10 for \$1.75;
100 for \$14.00

PARCEL POST—Grapes can be sent by parcel post, postage post-paid for 5c per vine extra.

Grapes occupy little room and supply an abundance of the most healthful fruit. Plant about 8 feet apart each way.

Brighton—Dark red when fully ripe. Bunch large, berries large; excellent variety, should be in every garden. Sept.

Caco (Red)—This new red grape has a most delicious flavor, and is of the highest quality. It is one of the earliest grapes in ripening. 45c each; 10 for \$3.50.

Concord (Black)—Early. Decidedly the most popular grape in America and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom; skin tender; flesh juicy, sweet, pulpy, tender. Mid-Sept. 20c each; 10 for \$1.50; 100 for \$9.00.

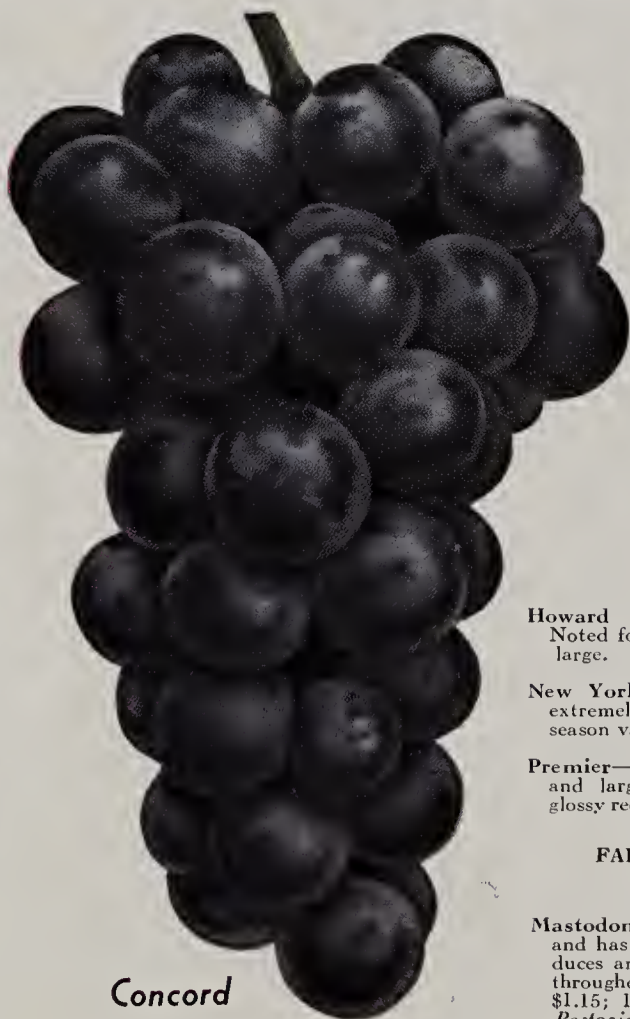

Delaware (Red)—Bunches small, compact, shouldered; berries rather small, round; skin thin; flesh very juicy, sweet, spicy and delicious. Mid-Sept.

Moore's Early Black—Bunch and berry very large; sweet and juicy. Stands at the head of early black grapes for quality. Late Aug., early Sept.

Niagara (White)—Bunch and berries large; greenish white, changing to yellow when fully ripe; fine flavor. Mid-Sept.

Worden (Black)—Bunch large, sometimes shouldered, compact; berries very large; skin thin. Early Sept.

Why Not Make An Extra Saving—
By Increasing Your Order To \$2.50
Then We Pay All Shipping Cost

Concord

Caco

Choice Strawberries

For garden culture set plants in rows two feet apart, with plants one foot apart in the rows.

Price, Postpaid, 25 for 95c; 100 for \$1.75;
1000 for \$10.00.

Big Joe (Perfect)—Late. Fruit firm, large size, good flavor, no green tips, productive.

Howard 17 (Perfect)—Early to late. Noted for its long fruiting season. Fruit large.

New York (Perfect)—Mid-season. Fruit extremely large, well colored. Good mid-season variety.

Premier—Perfect flowered. It is smooth and large; its color the commanding glossy red which sells on sight. Early.
